[Enlightenment Now](#) Steven Pinker, 2019-01-15 INSTANT NEW YORK TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST S BOOKS OF THE YEAR My new favorite book of all time Bill Gates If you think the world is coming to an end think again people are living longer healthier freer and happier lives and while our problems are formidable the solutions lie in the Enlightenment ideal of using reason and science By the author of the new book Rationality Is the world really falling apart Is the ideal of progress obsolete In this elegant

assessment of the human condition in the third millennium cognitive scientist and public intellectual Steven Pinker urges us to step back from the gory headlines and prophecies of doom which play to our psychological biases Instead follow the data In seventy five jaw dropping graphs Pinker shows that life health prosperity safety peace knowledge and happiness are on the rise not just in the West but worldwide This progress is not the result of some cosmic force It is a gift of the Enlightenment the conviction that reason and science can enhance human flourishing Far from being a naive hope the Enlightenment we now know has worked But more than ever it needs a vigorous defense The Enlightenment project swims against currents of human nature tribalism authoritarianism demonization magical thinking which demagogues are all too willing to exploit Many commentators committed to political religious or romantic ideologies fight a rearguard action against it The result is a corrosive fatalism and a willingness to wreck the precious institutions of liberal democracy and global cooperation With intellectual depth and literary flair Enlightenment Now makes the case for reason science and humanism the ideals we need to confront our problems and continue our progress

Science | Environment | Health Albert Zeyer, Regula Kyburz-Graber, 2021-12-09 This book provides a fascinating insight into the on going process of self reflection in the Science Environment Health S E H community The basic vision of a new S E H pedagogy is to establish a transdisciplinary dialogue between the three educational fields of science education environmental education and health education This approach finds growing interest among science educators Since 2014 the ESERA special interest group S E H has united both experienced and junior researchers all over Europe in a burgeoning research community This book presents a selection of results of these vibrant activities Systems theory has turned out to be a stimulating theoretical framework for S E H The limits of predictability in complex living systems result in structural uncertainty for decision making and they ask for emphasising and rethinking the role of pedagogical concepts like informed citizenship and scientific literacy They challenge crude scientific determinism in environmental and health education which all too often ends up with students eco and health depression Instead S E H conceives coping with uncertainty in terms of an interplay between cognitive and affective factors The horizon of the future remains always open Hope must never die in a new S E H pedagogy Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Everyday Gender at Work in Taiwan Ting-Fang Chin, 2018-02-09 This book explores professional women's experiences of gender in the Taiwanese workplace in the wake of the rapid transformation of the country's economy identifying attitudes to gender in a heterosexist and heteronormative social culture It contributes to understanding women's relationships with their superiors and peers at work and the strategies that they have used to negotiate with these role partners to achieve their own personal and career goals It notes that compared to women in other East Asian economies women in Taiwan have a more consistent career trajectory and that the local women's movement and activism has brought Taiwan a long way in improving women's employment rights but argues that it is too soon to claim that gender inequality has been banished from the workplace Based

on qualitative in depth interviews the book explores the participants accounts gendered and heteronormative practices at work in two contexts organisational management and everyday social encounters It investigates gender inequality at work by focusing on women employees everyday experiences and examines structural and institutional factors affecting gendered arrangements as well as personal experiences in negotiating gender A key read for students and scholars in gender and employment studies this book will also be of interest to those working within the field of employment sociology and organisational culture

Not Here, Not Now Anthony Dunne, Fiona Raby, 2025-05-06 What it means to design at a time when for many people the future seems to have become an impossibility When reality fails us what can designers do Question design s relationship to reality as Anthony Dunne and Fiona Raby do in this exhilarating yet thoughtful journey to the edges of science philosophy and literature to find new ways of thinking about the possible and about the meaning function and place of design in that speculative world of not here not now A conceptual travelogue of sorts *Not Here Not Now* brings together words images and objects that capture in design form some of the ideas encountered along the way Itself a design experiment the richly illustrated book explores ways to bring these ideas into conversation with objects through imagined archives libraries glossaries taxonomies lists tales and essays The design responses in *Not Here Not Now* to a stone raft for example or a vegetable lamb swatches of imaginary colors a pocket universe in the home objects undergoing space time collapse are like the most compelling utopias impossible by design aiming instead to nourish the creative intellectual and imaginative ground from which new possibilities still unknown might begin to emerge
