Post Card From Socrates To Freud And Beyond:

The Post Card Jacques Derrida, 1987 Examines the philosophies of Socrates and Plato Sigmund Freud's theory of psychoanalysis and the nature of communication **The Post Card** Jacques Derrida, 2020-10-28 17 November 1979 You were reading a somewhat retro loveletter the last in history But you have not yet received it Yes its lack or excess of address prepares it to fall into all hands a post card an open letter in which the secret appears but indecipherably What does a post card want to say to you On what conditions is it possible Its destination traverses you you no longer know who you are At the very instant when from its address it interpellates you uniquely you instead of reaching you it divides you or sets you aside occasionally overlooks you And you love and you do not love it makes of you what you wish it takes you it leaves you it gives you On the other side of the card look a proposition is made to you S and p Socrates and Plato For once the former seems to write and with his other hand he is even scratching But what is Plato doing with his outstretched finger in his back While you occupy yourself with turning it around in every direction it is the picture that turns you around like a letter in advance it deciphers you it preoccupies space it procures your words and gestures all the bodies that you believe you invent in order to determine its outline You find yourself you yourself on its path The thick support of the card a book heavy and light is also the specter of this scene the analysis between Socrates and Plato on the program of several others Like the soothsayer a fortune telling book watches over and speculates on that which must happen on what it indeed might mean to happen to arrive to have to happen or arrive to let or to make happen or arrive to destine to address to send to legate to inherit etc if it all still signifies between here and there the near and the far da und fort the one or the other You situate the subject of the book between the posts and the analytic movement the pleasure principle and the history of telecommunications the post card and the purloined letter in a word the transference from Socrates to Freud and beyond This satire of epistolary literature had to be farci stuffed with addresses postal codes crypted missives anonymous letters all of it confided to so many modes genres and tones In it I also abuse dates signatures titles or references language itself J D With The Post Card as with Glas Derrida appears more as writer than as philosopher Or we could say that here in what is in part a mock epistolary novel the long section is called Envois roughly dispatches he stages his writing more overtly than in the scholarly works The Post Card also contains a series of self reflective essays largely focused on Freud in which Derrida is beautifully lucid and direct Alexander Gelley Library Journal **The post card** Jacques Derrida, 1987 Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a

critical guide and as such will make a highly useful reference tool for those studying his philosophy Inside/Out Diana Fuss,2013-04-15 Lesbians and gays have gone from coming out to acting up to outing meanwhile radically redefining society's views on sexuality and gender The essays in Inside Out employ a variety of approaches psychoanalysis deconstruction semiotics and discourse theory to investigate representations of sex and sexual difference in literature film video music and photography Engaging the figures of divas dykes vampires and queens the contributors address issues such as AIDS pornography pedagogy authorship and activism Inside Out shifts the focus from sex to sexual orientation provoking a reconsideration of the concepts of the sexual and the political The Bureaucratic Experience: The Post-Modern Challenge Ralph P. Hummel,2014-12-18 Everyone has trouble with bureaucracy Citizens and politicians have trouble controlling the runaway bureaucratic machine Managers have trouble managing it Employees dislike working in it Clients can't get the goods from it Teachers have difficulty getting a grip on it Optimists argue that soon all of this will be fixed The new Fifth Edition of Ralph P Hummel's classic text maintains just the opposite that despite all the current rhetoric from proponents of total quality management corporate reengineering and the new public management it's still business as usual for bureaucracies The persistent reality of organizational structure remains resilient in the face of feel good trends and values For this edition the book has been thoroughly revised and updated with two key changes each of the six core chapters has been trimmed and edited to consolidate and streamline the important organizational theory developments since the book's initial publication and each chapter contains newly added critiques of the postmodern theory of modern organizations pursuing the theme that postmodernism covers up the persistent reality of organizational structure **The World after the End of the World** Kas Saghafi,2020-04-01 Examines themes of loss and mourning in the late work of Derrida In this book Kas Saghafi argues that the notion of the end the world in Derrida's late work is not a theological or cosmological matter but a meditation on mourning and the death of the other He examines this and several other tightly knit motifs in Derrida's work mourning survival the phantasm the event and most significantly the term salut which in French means at once greeting and salvation An underlying concern of The World after the End of the World is whether a discourse on salut saving being saved and salvation can be dissociated from discourse on religion Saghafi compares Derrida's thought along these lines with similar concerns of Jean Luc Nancy's Combining analysis of these themes with reflections on personal loss this book maintains that for Derrida salutation greeting and welcoming is resistant to the economy of salvation This resistance calls for what Derrida refers to as a spectro poetics devoted to and assigned to the other's singularity Saghafi's book makes a remarkable contribution as a coming to terms with interminable mourning Peggy Kamuf author of To Follow The Wake of Jacques Derrida Citizen Subject Étienne Balibar,2016-11-01 What can the universals of political philosophy offer to those who experience the living paradox of an inegalitarian construction of egalitarian citizenship Citizen Subject is the summation of Étienne Balibar's career long project to think the necessary and necessarily antagonistic relation between the categories of

citizen and subject In this magnum opus the question of modernity is framed anew with special attention to the self enunciation of the subject in Descartes Locke Rousseau and Derrida the constitution of the community as we in Hegel Marx and Tolstoy and the aporia of the judgment of self and others in Foucault Freud Kelsen and Blanchot After the humanist controversy that preoccupied twentieth century philosophy *Citizen Subject* proposes foundations for philosophical anthropology today in terms of two contrary movements the becoming citizen of the subject and the becoming subject of the citizen The citizen subject who is constituted in the claim to a right to have rights Arendt cannot exist without an underside that contests and defies it He or she because Balibar is concerned throughout this volume with questions of sexual difference figures not only the social relation but also the discontent or the uneasiness at the heart of this relation The human can be instituted only if it betrays itself by upholding anthropological differences that impose normality and identity as conditions of belonging to the community The violence of civil bourgeois universality Balibar argues is greater and less legitimate therefore less stable than that of theological or cosmological universality Right is thus founded on insubordination and emancipation derives its force from otherness Ultimately *Citizen Subject* offers a revolutionary rewriting of the dialectic of universality and differences in the bourgeois epoch revealing in the relationship between the common and the universal a political gap at the heart of the universal itself *Augustine and Postmodernism* John D.
