*God: An Anatomy* Francesca Stavrakopoulou, 2022-01-25 An astonishing and revelatory history that re presents God as he was originally envisioned by ancient worshippers with a distinctly male body and with superhuman powers earthly passions and a penchant for the fantastic and monstrous A rollicking journey through every aspect of Yahweh s body from top to bottom yes that too and from inside out Ms Stavrakopoulou has almost too much fun The Economist The scholarship of theology and religion teaches us that the God of the Bible was without a body only revealing himself in the Old Testament in words mysteriously uttered through his prophets and in the New Testament in the body of Christ The portrayal of God as corporeal and masculine is seen as merely metaphorical figurative or poetic But in this revelatory study Francesca Stavrakopoulou presents a vividly corporeal image of God a human shaped deity who walks and talks and weeps and laughs who eats sleeps feels and breathes and who is undeniably male Here is a portrait arrived at through the author s close examination of and research into the Bible of a god in ancient myths and rituals who was a product of a particular society at a particular time made in the image of the people who lived then shaped by their own circumstances and experience of the world From head to toe and every part of the body in between this is a god of stunning surprise and complexity one we have never encountered before

*Spirituality* Mark G. Boyer, 2013-09-17 The presence of the Divine is everywhere That is both a comfort and a challenge We are consoled to know that God is with us but being human we need a sign something to touch see hear taste smell We need something of the ordinary to name the non touchable invisible unable to be heard tasteless odorless God's presence with us So we employ metaphors figures of speech which literally denote one kind of object in place of another to suggest a likeness or analogy In this book the metaphors used for God come out of the Bible they are the four elements of nature for the Greeks wind water earth and fire Wind is a metaphor for God's Spirit Water refers to God as the source of life Earth from which we are created bears God's fingerprints and footprints And fire reminds us of the God who purifies and draws all creation to himself This nature spirituality book consists of four chapters wind water earth fire each of which contains twenty four part exercises of prayer a few verses from Scripture a reflection a journal exercise and a concluding prayer Unveiling the Real

You Within Shirley Diana Smith, 2013-04 Have you ever wondered where you are in life You realize that there is more to life than what meets the eye and yet you find that you are not where you want to be Realizing and acknowledging your true reflection in the mirror can be either a beautiful or a devastating experience depending upon one's perspective However it takes courage to confront the issues and responsibilities of oneself while not casting the blame onto others because of our own ignorance and lack of knowledge One can go through life wondering and searching trying to understand how to get to that place Sometimes it appears as though one is going around in circles trying to understand how we fit into this world What is my real purpose for being on this earth Well the Word of God tells us that God has predestined our lives before the foundations of the world Then the question remains of how do we get to the place that God has purposed for each of us in this preordained plan **A New Material Interpretation of Twelfth-Century Architecture** Jason Crow, 2025-10-01
