La communication au travail

Stéphane Olivesi,2002 La littérature managériale présente la communication interne comme une série de pratiques voire de recettes clairement codifiées que les directions d'entreprise et leurs cadres n'auraient qu'à appliquer pour atteindre l'excellence Elle n'oublie ainsi la diversité des formes vivantes de communication qui structurent les situations de travail comme pour mieux occulter le rapport salarial et les relations de pouvoir dans l'entreprise En contrepoint le présent ouvrage se propose d'esquisser une genalogie des nouvelles formes de communication pouvoir Doit-on considérer que l'ère de la communication préfigure la fin du syndicalisme et de l'identité militante qui s'y rattache Marque-t-elle l'avènement d'une pacification des rapports sociaux ou plutôt la neutralisation progressive des formes traditionnelles de lutte sous les effets convergents des stratégies managériales et de la conjoncture sociale Faut-il renforcer l'extension de la communication hypothé communément admise d'un dépassagement du fordisme N'assiste-ton pas en fait une renaissance de logiques tayloriennes qui continueront à gêner davantage efficacement les formes sectorielles d'organisation du travail qu'elles ne laisseraient plus paraître leur véritable visage Rpondre ces questions nécessite de reconstruire l'impératif communicationnel sous l'angle de ses implications A cette fin les analyses s'attachent à cerner les transformations qui ont accompagné l'émergence de la communication dans différents domaines de la formation professionnelle la gestion des ressources humaines de la culture d'entreprise au management par la qualité sans oublier le rôle structurant joué par les TIC

dans l'organisation du travail Il en ressort une critique des nouvelles formes de coercition qui ont accompagné l'extension de la communication pour faire du salarié son insu l'exploiteur conciliant de sa force de travail *Entreprises : et si vous arrêtez le coup de com' ?* Olivier Cimelière, 2024-05-02
