connections to land history family and self More importantly Indigenous writers imaginatively engage the many ways that communities and individuals have sought to nurture these relationships and project them into the future This provocative volume challenges readers to critically consider and rethink their assumptions about Indigenous literature history and politics while never forgetting the emotional connections of our shared humanity and the power of story to effect personal and social change Written with a generalist reader firmly in mind but addressing issues of interest to specialists in the field this book welcomes new audiences to Indigenous literary studies while offering more seasoned readers a renewed appreciation for these transformative literary traditions
