depiction of rape in D W Griffith s earlier silent classic Birth of a Nation Other essays position the novel and film within the context of their legacy and their impact on national and international audiences Amy Clukey and James Crank inspect the reception of Gone with the Wind by Irish critics and gay communities respectively Daniel Cross Turner Keaghan Turner and Rich Richardson consider its aesthetic impact and mythology and the ways that contemporary writers and artists such as Natasha Trethewey and Kara Walker have engaged with the work Finally Helen Taylor sums up the pervading influence that Gone with the Wind continues to exert on audiences in both America and Britain Through an emphasis on intertextuality sexuality and questions of audience and identity these essayists deepen the ongoing conversation about the cultural impact and influence of this monumental work Flawed in many ways yet successful beyond its time Gone with the Wind remains a touchstone in southern studies

Lynching Professor Robert W Thurston, 2013-07-28 Addressing one of the most controversial and emotive issues of American history this book presents a thorough reexamination of the background dynamics and decline of American lynching It argues that collective homicide in the US can only be partly understood through a discussion of the unsettled southern political situation after 1865 but must also be seen in the context of a global conversation about changing cultural meanings of race A deeper comprehension of the course of mob murder and the dynamics that drove it emerges through comparing the situation in the US with violence that was and still is happening around the world Drawing on a variety of approaches historical anthropological and literary the study shows how concepts of imperialism gender sexuality and civilization profoundly affected the course of mob murder in the US Lynching provides thought provoking analyses of cases where race was and was not a factor The book is constructed as a series of case studies grouped into three thematic sections Part I Understanding Lynching starts with accounts of mob murder around the world Part II Lynching and Cultural Change examines shifting concepts of race gender and sexuality by drawing first on the romantic travel and adventure fiction of the era 1880 1920 from authors such as H Rider Haggard and Edgar Rice Burroughs Changing images of black and white bodies form another major focus of this section Part III Blood Debate and Redemption in Georgia follows the story of American collective murder and growing opposition to it in Georgia a key site of lynching in the early twentieth century By situating American mob murder in a wide international context and viewing the phenomenon as more than simply a tool of racial control this book presents a reappraisal of one of the most unpleasant yet important periods of America s history one that
