

Alum Rock Union School District

SEE as we begin a network redesign to implement a state standard and feature architecture, our Meraki Network Configuration Manager drastically reduced implementation time, streamlining network design and deployment to switches and changing local network elements with a few clicks. All this in a fraction of the time. The implementation process is allowing them to get back to business promptly, reducing time spent by up to 75%. **20**

— Scott J. Reed
CTO of Alum Rock Union School District

ABOUT ALUM ROCK

Alum Rock Union School District currently operates 12 elementary and middle schools in the greater San Jose, California region. With nearly 8,000 students and almost 500 teachers and faculty, demand for technical tools and resources was at an all-time high even before the COVID-19 pandemic levied unprecedented pressure. A small but dedicated IT team was responsible for transforming antiquated aging technical infrastructure into a modern network capable of meeting the future needs of students and staff—in the classroom, remotely, or in hybrid environments.

Budget constraints, lengthy procurement processes, limited technical resources, and a patchwork collection of legacy on-premise systems, cloud services, and out-of-the-box applications created myriad challenges for network administrators. They needed visibility and control across their entire network—from legacy hardware performance data to cloud-based application and service management—they couldn't risk a single server or switch failure taking out the entire system. Device management, user authentication, security, and compliance were also important factors.

CONCLUSION

A school district with limited staff and limited financial resources needs to modernize its IT infrastructure for the next generation of users.

IDENTIFY

A single vendor with a full-stack feature-rich product portfolio designed for fast deployment and scaled as needed to meet demand.
