China's White-Collar Wave Changyun Jiang, Qun Lian Hong, Ling Qiu, 2019-11-04 This book explores the move from manufacturing towards service industry jobs in China's economic development during the 12th Five Year Plan period. The service industry now makes up the highest proportion of the GDP and employs the largest number of people in China. In the next Five Year Plan period it is necessary to actively push forward the strategic transformation by placing emphasis on the service industry to press ahead with system and mechanism reforms and policy innovations and cultivate diverse sustainable and continuous forces for driving its growth. Efforts are made to upgrade the service industry to better achieve economic and social development in an innovative, coordinated, green, open and shared way. This book will be of interest to scholars researching China's future.

Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa Teshager Alemu, Kassa, Abebe Alebachew, Mulunesh, 2018-02-09 Despite increasing reports across the globe on renewable development and maintenance, little is known regarding what strategies are required for improved economic growth and prosperity in Africa. Improving an understanding of the methods for promoting growth through reusable resource development and administration is a vital topic of research to consider in assisting the continent's development. The Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa provides emerging research on the strategies required to promote growth in Africa as well as the implications and issues of the expansion of prosperity. While highlighting sustainable education, pastoral development pathways and the public sector role, readers will learn about the history of sustainable development and governmental approaches to improving Africa's economy. This publication is a vital resource for policy makers, research institutions, academics, researchers and advanced level students seeking current research on the theories and applications of development in societal and legal institutions.

The Quantum Keys Athena Melchizedek, 2017-06-29 This book describes the synthesis currently occurring between science and metaphysics that reveals the energetic nature of all life and the amazing truth behind physical reality. It discusses the relationship between energy and consciousness and how management of your own energy signature can change your reality and even your physical body. It demonstrates how you can connect to the immense energy available at the higher frequencies of your own being to manifest abundance, love and peace for yourself, your family, your business, your community and your world.

Food for All Uma Lele, Manmohan Agarwal, Brian C. Baldwin, Sambuddha Goswami, 2021-10-15 Many developing countries are falling behind sustainable development goals; food and nutrition levels have deteriorated due to conflict, climate change and the Covid pandemic, while global ambitions for achieving sustainable food security and adequate nutrition have increased.
