Klepinger,2022-07-18 Transnational Yoga at Work Spiritual Tourism and Its Blind Spots is an ethnography about local wagedworkers in the Indian branches of a transnational yoga institution and about yoga practitioners and spiritual tourists who visualize peace through yoga Practitioners aspirations for peace situate them at the heart of an international movement that has captured the imagination of cosmopolitans the world over with its purported benefits to mind body and spirit Yoga is thought to offer health vitality and relief from depression through control of body and breath Yet the vision of peace in this institution is a partial vision that obscures the important but seemingly peripheral others of its self conception Through in depth ethnographic analysis this book explores the processes through which global spiritual movements can have peace front and center in their vision and yet condone and perpetuate cycles of injustice and social inequality that form the critical and problematic foundations of our global economy The book privileges the experiences and hardships faced by Indian wagedworkers most of them women but it also offers a sympathetic portrayal of international yoga practitioners and of the complex patterns of work and worship central to a global mission For more information check out A conversation with Laura E Klepinger author of Transnational Yoga at Work Spiritual Tourism and Its Blind Spots **Country Experiences in Economic Development, Management and Entrepreneurship** Mehmet Huseyin Bilgin,Hakan Danis,Ender Demir,Ugur Can,2016-11-09 This volume brings together selected papers from the 17th EBES Conference organized in Venice in winter 2015 The theoretical and empirical papers present the latest research in diverse areas of business economics and finance from many different regions They chiefly focus on the interactions between economic development entrepreneurship and financial institutions especially putting the spotlight on cross country evidence Topics range from women s entrepreneurship and economic regulation to sustainability and climate change This book provides researchers professionals and students a great opportunity to catch up on the latest studies in different fields and empirical findings on many countries and regions **The Rise and Decline of Fundamental Rights in EU Citizenship** Adrienne Yong,2019-03-21 This book argues that there is an inherent relationship between EU fundamental rights and EU citizenship they both have the same objective of guaranteeing protection for the individual This is underpinned by the development of case law in the field by the Court of

Justice of the EU CJEU Here however the author proposes that that relationship has weakened in recent years as the CJEU has entered increasingly sensitive territory in regard to the protection of citizenship rights and fundamental rights Writing in the post UK EU referendum environment the author argues that this decline is attributable to increasing Euroscepticism which has worsened since the Eurozone crisis and even more so in light of Brexit and arguments made that leaving the EU would reduce immigration This argument is particularly important to note given the rising fears of immigration that underlie much of the dissatisfaction with the EU project a feeling prevalent not only in the UK The chapters look at the rights of migrant EU citizens in Member States other than their own and the guarantees that exist as a matter of protecting their fundamental human rights which are present alongside rights enjoyed as part of being an EU citizen
