alongside practice and related key topics throughout It demonstrates informatively that ideas concerning development have been many and varied and highly contested varying from time to time and from place to place Clearly written and accessible for students who have no prior knowledge of development the book provides the basics in terms of a geographical approach to development what situation is where when and why Over 200 maps charts tables textboxes and pictures break up the text and offer alternative ways of showing the information The text is further enhanced by a range of pedagogical features chapter outlines case studies key thinkers critical reflections key points and summaries discussion topics and further reading Geographies of Development continues to be an invaluable introductory text not only for geography students but also anyone in area studies international studies and development studies *Rhetorics of Race and Religion on the Christian Right*

Samuel P. Perry,2019-11-20 As the first African American president Barack Obama faced unique challenges and obstacles when addressing issues of race While rhetorical attacks on the basis of race directed at Obama were not unexpected many of the most consistent racially motivated criticisms of Obama were associated with his religious identity The Jeremiah Wright controversy gave way to the birther and secret Muslim conspiracy theories while anxieties about Obama s identity proved particularly potent as modes of political attack in the context of the war on terror This book examines the ways in which those attacks often originated in the rhetoric of the Christian Right and the ways in which these theories circulated amongst the Christian Right Perry argues that the intersections of race and religion in American politics produced rhetoric that often caricatured Obama as un American anti Christian and an enemy of the state By exploring the arguments used to cultivate these characterizations and tracing the roots of conspiracies that worked to delegitimize Obama s religious identity through racial claims and stereotypes a clearer picture emerges of what is at stake when people can no longer separate religious convictions from political arguments **Women Architects at Work** Mary Anne Hunting,Kevin D. Murphy,2025-02-18 The first comprehensive history of the role of women architects within the history of American modernism

The Spirit of Conscious Capitalism Michel Dion,Moses Pava,2022-10-20 This book provides a constructive criticism of the emerging practice of conscious capitalism from the perspective of world religions and spiritualities Conscious capitalism to many of its adherents represents an evolutionary step forward beyond the dominant neo liberal paradigm where it often appears that just about everything is for sale Is conscious capitalism consistent with the values inherent in religious and spiritual world views and does it provide a better fit for bringing out the best that business has to offer This book answers these questions and many more An appealing read for researchers in business ethics as well as any reader critical of the excrescences of capitalism **Hybrid Financial Instruments in International Tax Law** Jakob Bundgaard,2016-11-15 Financial

innovation allows companies and other entities that wish to raise capital to choose from a myriad of possible instruments that can be tailored to meet the specific business needs of the issuer and investor However such instruments put increasing pressure on a question that is fundamental to the tax and financial systems of a country the distinction between debt and

equity Focusing on hybrid financial instruments HFIs which lie somewhere along the debt equity continuum but where exactly depends on the terms of the instrument as well as on applicable laws this book analyses their treatment under both domestic law and tax treaties Key jurisdictions including the EU some of its Member States and the United States are covered Advocating for a broader scope of application of HFIs as part of the financing of companies in Europe alongside traditional sources of debt and equity financing the book addresses such issues and topics as the following problems associated with the debt equity distinction in international tax law cross border tax arbitrage and linking rules drivers behind the use and design of HFIs tax law impact of perpetual and super maturity debt instruments profit participating loans convertible bonds mandatory convertible bonds contingent convertibles preference shares and warrant loans on HFIs financial accounting treatment administrative guidance influence of the TFEU on Member States approaches to classification of HFIs interpretation of the Parent Subsidiary Directive by the European Court of Justice applicability of the OECD Model Tax Convention and implications of the OECD Base Erosion and Profit Shifting BEPS project Throughout this book the analysis draws upon preparatory works case law and legal theory in English German and the Scandinavian languages In conclusion the author considers tax policy issues and identifies and outlines possible high level solutions Actual or potential users of HFIs will greatly appreciate the clarity and insight offered here into the capacity and tax implications of HFIs The book not only examines whether existing legislation is sufficient to handle the issues raised by international HFIs but also provides an in depth analysis of the interaction between corporate financing and tax law in the light of today s financial innovation Corporate executives and their counsel will find it indispensable in the international taxation landscape that is currently coming into view and academics and policymakers will hugely augment their understanding of a complex and constantly changing area of tax law

Unequal Neighbors Kristen Hill Maher, David Carruthers, 2021-04-02 San Diego and Tijuana are the site of a national border enforcement spectacle but they are also neighboring cities with deeply intertwined histories cultures and economies In *Unequal Neighbors* Kristen Hill Maher and David Carruthers shift attention from the national border to a local one examining the role of place stigma in reinforcing actual and imagined inequalities between these cities While the details of the book are particular to this corner of the world the kinds of processes it documents offer a window into the making of unequal neighbors more broadly The dynamics at the Tijuana border present a framework for understanding how inequalities that manifest in cultural practices produce asymmetric borders between places
