Sikander Ahmed Shah proposes leveraging power sharing to counter the prevailing hegemonic trends and to foster greater sociocultural cohesion within Pakistan's diverse polity. This model entails dividing Pakistan's federal provinces into smaller diverse entities more reflective of their particular constituent demographics while integrating key democratic principles such as distributive justice, grassroots democracy, minority protections, and multiculturalism into its governance structures. The book explores Pakistan's civil-military asymmetry, emphasizing the influential role of the military establishment and its intertwined relationship with preexisting inter-ethnic tensions. The analysis also extends to the China-Pakistan Economic Corridor (CPEC), examining its impact on Pakistan's federal structure, socio-economic fabric, and civil-military dynamics within the context of China's distinctive economy. Throughout the work, it seeks to provide locally relevant and indigenously viable solutions for positive and equitable outcomes, challenging historical power imbalances that have marginalized certain groups in Pakistan.

Solution Protocols to Festering Island Disputes Godfrey Baldacchino, 2017-04-28. Since the coming into force of the United Nations Law of the Sea, states have been targeting outlying islands to expand their exclusive economic zones, simultaneously stirring up strident nationalism when such plans clash with those of neighbouring states. No such actions have brought the world closer to the brink of war than the ongoing face-off between China and Japan over the Diaoyu/Senkaku islands, an uninhabited archipelago in the East China Sea. In this timely and original book, Godfrey Baldacchino provides a detailed exploration of seven tried and tested solution protocols that have led to innovative win-win solutions to island disputes over the last four centuries. A closer look at the circumstances and processes that brought contending regional powers to an honourable even mutually advantageous settlement over islands provides a convincing and original argument as to why the conflict over the Diaoyu/Senkaku islands need not conclude in a zero-sum or winner-takes-all solution, as is the likely outcome of both open conflict and international arbitration. The book will be of interest to scholars and practitioners concerned with the festering Diaoyu/Senkaku dispute, as well as students, scholars, and policy specialists in geography, geopolitics, international relations, conflict studies, island studies, Asian studies, and history.
