The Fitness of Information Chaomei Chen,2014-07-30 Theories and practices to assess critical information in a complex adaptive system Organized for readers to follow along easily The Fitness of Information Quantitative Assessments of Critical Evidence provides a structured outline of the key challenges in assessing crucial information in a complex adaptive system Illustrating a variety of computational and explanatory challenges the book demonstrates principles and practical implications of exploring and assessing the fitness of information in an extensible framework of adaptive landscapes The book s first three chapters introduce fundamental principles and practical examples in connection to the nature of aesthetics mental models and the subjectivity of evidence In particular the underlying question is how these issues can be addressed quantitatively not only computationally but also explanatorily The next chapter illustrates how one can reduce the level of complexity in understanding the structure and dynamics of scientific knowledge through the design and use of the CiteSpace system for visualizing and analyzing emerging trends in scientific literature The following two chapters explain the concepts of structural variation and the fitness of information in a framework that builds on the idea of fitness landscape originally introduced to study population evolution The final chapter presents a dual map overlay technique and demonstrates how it

supports a variety of analytic tasks for a new type of portfolio analysis The Fitness of Information Quantitative Assessments of Critical Evidence also features In depth case studies and examples that characterize far reaching concepts illustrate underlying principles and demonstrate profound challenges and complexities at various levels of analytic reasoning Wide ranging topics that underline the common theme from the subjectivity of evidence in criminal trials to detecting early signs of critical transitions and mechanisms behind radical patents An extensible and unifying framework for visual analytics by transforming analytic reasoning tasks to the assessment of critical evidence The Fitness of Information Quantitative Assessments of Critical Evidence is a suitable reference for researchers analysts and practitioners who are interested in analyzing evidence and making decisions with incomplete uncertain and even conflicting information The book is also an excellent textbook for upper undergraduate and graduate level courses on visual analytics information visualization and business analytics and decision support systems

Toxic Empathy Allie Beth Stuckey, 2024-10-15 A sharp Christian voice makes a bold argument when politics are driven by empathy rather than truth innocent people pay the price We are told that empathy is the highest virtue the key to being a good person Is that true Or has empathy like so many other words of our day tolerance justice acceptance been hijacked by bad actors who exploit compassion for their own political ends In Toxic Empathy Allie Beth Stuckey argues that empathy has become a tool of manipulation by left wing activists who bully people into believing that they must adopt progressive positions to be loving She explores the five most heated issues through which toxic empathy is deployed abortion gender sexuality immigration and social justice Progressives use catchy mantras to present their perspective as empathetic like abortion is healthcare love is love or no human being is illegal but in each case they ignore the other side of the moral equation For example abortion is presented as compassionate for the woman but what about the human life the procedure kills This book isn't about killing empathy it's about submitting our empathy to God's definitions of love goodness and justice Stuckey exposes the logical pitfalls and moral consequences of toxic empathy equipping Christians with research backed Biblical truths to dismantle the progressive lies that have permeated our culture and our church

The Choice for Banking Union Elena Ríos Camacho, 2021-12-30 This book explains why the European Union EU Member States in response to the euro crisis agreed to establish banking union despite previous objections and why they chose its hybrid institutional design Analysing its establishment from 2012 to 2020 the book offers a comprehensive view of the preferences of the Member States and EU institutions as well as of the negotiation dynamics and latest developments in the three pillars of banking union namely the Single Supervisory Mechanism the Single Resolution Mechanism and the common backstop and the European deposit insurance scheme Furthermore empirically the book looks beyond the usual focus of the northern and southern coalition of states to underline the influence of powerful smaller Member States in the intergovernmental bargaining process Adopting a range of theoretical perspectives it questions the solidity of the northern versus southern camps and reveals distinctive and particular positioning from individual countries

during the process This book will be of key interest to scholars and students of European financial market regulation European economic governance EU institutions European integration theory and EU politics more broadly

Perilous Medicine Leonard Rubenstein, 2021-09-21 Pervasive violence against hospitals patients doctors and other health workers has become a horrifically common feature of modern war These relentless attacks destroy lives and the capacity of health systems to tend to those in need Inaction to stop this violence undermines long standing values and laws designed to ensure that sick and wounded people receive care Leonard Rubenstein a human rights lawyer who has investigated atrocities against health workers around the world offers a gripping and powerful account of the dangers health workers face during conflict and the legal political and moral struggle to protect them In a dozen case studies he shares the stories of people who have been attacked while seeking to serve patients under dire circumstances including health workers hiding from soldiers in the forests of eastern Myanmar as they seek to serve oppressed ethnic communities surgeons in Syria operating as their hospitals are bombed and Afghan hospital staff attacked by the Taliban as well as government and foreign forces Rubenstein reveals how political and military leaders evade their legal obligations to protect health care in war punish doctors and nurses for adhering to their responsibilities to provide care to all in need and fail to hold perpetrators to account Bringing together extensive research firsthand experience and compelling personal stories *Perilous Medicine* also offers a path forward detailing the lessons the international community needs to learn to protect people already suffering in war and those on the front lines of health care in conflict ridden places around the world
