Scope Magazine March 2015:

Toxic Chemicals in America Kelly A. Tzoumis, 2020-12-02 This one stop resource is ideal for understanding the extent to which toxic chemicals are used in U S industry and agriculture impacting public health and the environment through everything from industrial solvents to children s toys Every year about 4 billion pounds of toxic chemicals are generated and released by U S industries Do these chemicals pose a potential health threat to American families including vulnerable groups like children and the elderly Is their manufacture and use adequately regulated to protect both human and environmental health Is the Chemical Safety for the 21st Century Act signed in June 2016 by President Barack Obama with bipartisan support truly the first major overhaul of toxic chemical regulation in 40 years to put human health first as its supporters asserted Or is it a fatally flawed bill that does the bidding of industry by undermining strong state environmental and public health laws as some detractors claim This two volume set addresses all of those questions Moreover it presents and examines arguments marshaled by business interests community leaders scientists activists and lawmakers alike It thus provides users with the information they need to accurately assess the impacts pro and con that industrial chemicals are having in shaping the world in which we work eat drink breathe and play *Lone Star Steeples* Pixie Christensen, 2016-06-14 In *Lone Star Steeples* Historic Places of Worship in Texas Carl J Christensen Jr and Pixie Christensen present sixty five captivating and historically significant structures in exquisite watercolor illustrations accompanied by brief summaries and convenient handcrafted maps Ranging from stately edifices of brick and stone located in urban centers to more humble wood frame chapels in rural surroundings the houses of faith shown in these pages have one important trait in common They have all served as centers of cultural identity spiritual comfort and public service to the communities in which they arose In their introduction the Christensens write The journey behind *Lone Star Steeples* crisscrossed the state along back roads farm roads and state highways In these journeys and in the stories that were told certain patterns began to emerge the pride of the people in building their churches debt free the perseverance of the people who endured their beloved church being destroyed by natural disaster once twice or even three times the people s recognition of the church as their cultural foundation their moral foundation their social center As the Christensens demonstrate Texas is home to a remarkable diversity of people and their places of worship reflect and celebrate that diversity [Focus On: 100 Most Popular Nonlinear Narrative Films](#) Wikipedia contributors, [Technology and the Making of Experimental Film Culture](#) John Powers, 2023 The Bolex camera 16mm reversal film stocks commercial film laboratories and low budget optical printers were the small gauge media technologies that provided the infrastructure for experimental filmmaking at the height of its cultural impact *Technology and the Making of Experimental Film Culture* examines how the avant garde embraced these material resources and invested them with meanings and values adjacent to those of semiprofessional film culture By reasserting the physicality of the body in making time lapse and kinesthetic sequences with the Bolex filmmakers conversed

with other art forms and integrated broader spheres of humanistic and scientific inquiry into their artistic process Drawing from the photographic qualities of stocks such as Tri X and Kodachrome they discovered pliant metaphors that allowed them to connect their artistic practice to metaphysics spiritualism and Hollywood excess By framing film labs as mystical or adversarial they cultivated an oppositionality that valorized control over the artistic process And by using the optical printer as a tool for excavating latent meaning out of found footage they posited the reworking of images as fundamental to the exploration of personal and cultural identity Providing a wealth of new detail about the making of canonized avant garde classics by such luminaries as Carolee Schneemann Jack Smith and Stan Brakhage as well as rediscovering works from overlooked artists such as Chick Strand Amy Halpern and Gunvor Nelson Technology and the Making of Experimental Film Culture uses technology as a lens for examining the process of making where ideas come from how they are put into practice and how arguments about those ideas foster cultural and artistic commitments and communities

Ryan Lualaba-Hollon,Daniel Cooper,2018-04-17 A narrative driven exploration of policing and the punishment of disadvantage in Chicago and a new vision for repairing urban neighborhoods For people of color who live in segregated urban neighborhoods surviving crime and violence is a generational reality As violence in cities like New York and Los Angeles has fallen in recent years in many Chicago communities it has continued at alarming rates Meanwhile residents of these same communities have endured decades of some of the highest rates of arrest incarceration and police abuse in the nation The

War on Neighborhoods argues that these trends are connected Crime in Chicago as in many other US cities has been fueled by a broken approach to public safety in disadvantaged neighborhoods For nearly forty years public leaders have attempted to create peace through punishment misinvesting billions of dollars toward the suppression of crime largely into a small subset of neighborhoods on the city's West and South Sides Meanwhile these neighborhoods have struggled to sustain investments into basic needs such as jobs housing education and mental healthcare When the main investment in a community is policing and incarceration rather than human and community development that amounts to a war on neighborhoods which ultimately furthers poverty and disadvantage Longtime Chicago scholars Ryan Luggalia Hollon and Daniel Cooper tell the story of one of those communities a neighborhood on Chicago's West Side that is emblematic of many majority black neighborhoods in US cities Sharing both rigorous data and powerful stories the authors explain why punishment will never create peace and why we must rethink the ways that public dollars are invested into making places safe The War on Neighborhoods makes the case for a revolutionary reformation of our public safety model that focuses on shoring up neighborhood institutions and addressing the effects of trauma and poverty The authors call for a profound transformation in how we think about investing in urban communities away from the perverse misinvestment of policing and incarceration and toward a model that invests in human and community development

A Regulatory Framework for the Art Market? Anna Bolz, 2022-11-24 This book addresses practical issues in connoisseurship and authentication as well as the legal implications that arise when an artwork's authenticity is challenged In addition the standards and processes of authentication are critically examined and the legal complications which can inhibit the expression of expert opinions are discussed The notion of authenticity has always commanded the attention of art market participants and the general art minded public alike Coinciding with this forgery is often considered to be the world's most glamorous crime packed with detective stories that are usually astonishing and often bizarre The research includes findings by economists sociologists art historians lawyers academics and practitioners all of which yield insights into the mechanics and peculiarities of the art business and explain why it works so differently from other markets However this book will be of interest not only to academics but to everyone interested in questions of authenticity forgery and connoisseurship At the same time one of its main aims is to advocate best practices in the art market and to stress the importance of cooperation among all disciplines with a stake in it The results are intended to offer guidance to art market stakeholders legal practitioners and art historians alike while also promoting mutual understanding and cooperation

Collisions in the Digital Paradigm David John Harvey, 2017-03-23 It has been said that the only asset that a lawyer has is time But the reality is that a lawyer's greatest asset is information The practice and the business of law is all about information exchange The flow of information travels in a number of different directions during the life of a case A client communicates certain facts to a lawyer The lawyer assimilates those facts and seeks out specialised legal information which may be applicable to those facts In the course of a

generation there has been a technological revolution which represents a paradigm shift in the flow of information and communication Collisions in the Digital Paradigm is about how the law deals with digital information technologies and some of the problems that arise when the law has to deal with issues arising in a new paradigm *Media Today* Joseph Turow,2016-10-04 Media Today uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world Through the convergence lens they learn to think critically about the role of media today and what these changes mean for their lives presently and in the future The book s media systems approach helps students to look carefully at how media content is created distributed and exhibited in the new world that the digital revolution has created From newspapers to video games and social networking to mobile platforms Media Today prepares students to live in the digital world of media The Routledge Handbook of Soft Power Naren Chitty,Lilian Ji,Gary D Rawnsley,Craig Hayden,2016-11-03 The Routledge Handbook of Soft Power is the first volume to offer a comprehensive and detailed picture of soft power and associated forms of public diplomacy The terms soft power and public diplomacy have enormous currency in media and policy discourse yet despite all the attention the terms remain conceptually ambiguous for analysts of international influence The consequence is that the terms have survived as powerful yet criticized frames for influence Divided into two main parts Part I outlines theoretical problems methodological questions the cultural imperative and the technological turn within the study of soft power and Part II focuses on bringing the theory into practice through detailed discussion of key case studies from across the Americas Europe the Middle East Africa and Asia This innovative handbook provides a definitive resource for students and scholars seeking to familiarize themselves with cutting edge debates and future research on soft power and will be of interest to those studying and researching in areas such as international relations public diplomacy and international communication **The United Nations, Peace and Security** Ramesh Thakur,2016-12-13 Ending humanitarian atrocities has become as important for the United Nations as preventing interstate war This book examines the transformation of UN operations analysing its changing role and structure Ramesh Thakur asks why when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community He considers the tension between the United States with its capacity to use force and project power and the United Nations as the centre of the international law enforcement system He asserts the central importance of the rule of law and a rules based order focused on the United Nations as the foundation of a civilised system of international relations This book will be of interest to students of the United Nations and international organisations in politics law and international relations departments as well as policymakers in governmental and non governmental international organisations **Advancing the Power of Economic Evidence to Inform Investments in Children, Youth, and Families** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on the Use of Economic Evidence to Inform Investments in

Children, Youth, and Families,2016-08-25 In recent years the U S federal government has invested approximately 463 billion annually in interventions that affect the overall health and well being of children and youth while state and local budgets have devoted almost double that amount The potential returns on these investments may not only be substantial but also have long lasting effects for individuals and succeeding generations of their families Ideally those tasked with making these investments would have available to them the evidence needed to determine the cost of all required resources to fully implement and sustain each intervention the expected returns of the investment to what extent these returns can be measured in monetary or nonmonetary terms and who will receive the returns and when As a result of a number of challenges however such evidence may not be effectively produced or applied Low quality evidence and or a failure to consider the context in which the evidence will be used may weaken society s ability to invest wisely and also reduce future demand for this and other types of evidence Advancing the Power of Economic Evidence to Inform Investments in Children Youth and Families highlights the potential for economic evidence to inform investment decisions for interventions that support the overall health and well being of children youth and families This report describes challenges to the optimal use of economic evidence and offers recommendations to stakeholders to promote a lasting improvement in its quality utility and use
