Media, Practice and Theory: Tracking emergent thresholds of experience Nicole De Brabandere,2023-04-18 This
 volume gathers research at the intersection of art and the interdisciplinary humanities to develop an understanding of media
 assemblages that insist on the generativity of their situatedness within ecologies of practice These contributions propose
 media assemblages that enlarge the time and space for co compositions between media and bodies that reshape subjective
 perceptual and affective registers of experience Media assemblages include photography performance criticism curation
 installation animation collage video and VR as well as archival and somatic practices Research as a form of practice is a key
 orientation in this volume since it offers a means of engaging the world making proposition offered by Isabelle Stengers that
 practices are specified through irreducible entanglements that cause one to think feel and hesitate The generative linkages
 between different disciplinary approaches for engaging research practice across the arts and humanities are favoured over
 disciplinary and media based exclusivity When practice is not posed as an intervention or counterpoint to scholarly research
 or in opposition to the discursive differences emerge not based on convention but through the situatedness of emergent
 insight The goal is thus not to forward a reproducible formula for knowledge creation but to weave the conditions for
 utterances both within and in excess of discipline convention and establishment How can research engender the making of
 communities between across and in excess of institutional frameworks through the emergent affinities postures and formats
 of evolving and inclusive forms of research This volume is a valuable reference for researchers practitioners within the arts
 and humanities as it exemplifies both critical and situated methods for developing interdisciplinary research as a means of
 transforming the terms of research itself **American Motorcyclist** ,1995-03 American Motorcyclist magazine the official
