**The Romance of Regionalism in the Work of F. Scott and Zelda Fitzgerald** Kirk Curnutt, Sara A. Kosiba, 2022-09-07 The Romance of Regionalism in the Work of F Scott and Zelda Fitzgerald The South Side of Paradise explores resonances of Southernness in works by American culture's leading literary couple At the height of their fame F Scott and Zelda Fitzgerald dramatized their relationship as a romance of regionalism as the charming tale of a Northern man wooing a Southern belle Their writing exposes deeper sectional conflicts however from the seemingly unexorcisable fixation with the Civil War and the historical revisionism of the Lost Cause to popular culture's depiction of the South as an artistically deprived economically broken backwater the couple challenged early twentieth century stereotypes of life below the Mason Dixon line From their most famous efforts The Great Gatsby and Save Me the Waltz to their more overlooked and obscure Scott's 1932 story Family in the Wind Zelda's The Iceberg published in 1918 before she even met her husband Scott and Zelda returned obsessively to the challenges of defining Southern identity in a country in which going south meant decay and dissolution Contributors to this volume tackle a range of Southern topics including belle culture the picturesque and the Gothic Confederate commemoration and race relations and regional reconciliation As the collection demonstrates the Fitzgeralds' fortuitous meeting in Montgomery Alabama in 1918 sparked a Southern renaissance in miniature

**Metropolitan Mosaics and Melting-Pots** Adlai Murdoch, Pascale De Souza, 2014-10-16 Migration is both a demographic and a cultural phenomenon As such it both reshapes the global village and subverts the all encompassing vision of the city a space split between the blending of all new cultures and the need felt by many migrants to maintain their

traditions and thereby contribute to a multicultural mosaic This series of essays explores how the concepts of the melting pot and the mosaic have shaped the representation of Paris and Montreal in francophone literatures Migrant movements to these cities from the Caribbean the Maghreb Sub Saharan Africa Quebec Indochina and the Indian Ocean have produced new groups of intersecting cultures Under the dual influences of their native and host countries migrants have produced an innovative and multifaceted literature that reflects their composite world view Their writing poses pressing questions of ethnicity immigration integration and citizenship and challenges longstanding notions both of the concept of the city and of how its spaces embody and articulate Frenchness in the face of ongoing change Such shifts produce changes not only in the diasporic culture but in the national culture as well through creolization processes These shifting identities increasingly destabilize current notions of national membership and social and cultural belonging since we can no longer presume a direct correspondence between place culture language and identity They also pose new questions of national identity and difference as the immigrant presence expands and inflects the cosmopolitan pluralism of today s societies

**Latinx Literature Unbound** Ralph E. Rodriguez,2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category under which we group this literature Latinx Literature Unbound thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions Latinx Literature Unbound frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more

salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx **JOHN**
