Midterm Study Guide

Why Geography?

- Geography considers a world whose political, cultural, economic, and technological bases are constantly changing; they are always moving
- A perspective that emphasizes local context and pays attention to the place from which knowledges are produced and phenomena are viewed
- A perspective that looks at connectivities across bounded spaces like states
- A method that can be employed to either further or challenge dominant power relations
- A discipline that straddles and synthesizes the insights of the humanities, social sciences, and hard sciences.

 - Example: Tuvan's using sound to express a sense of place
- Places can be tied to certain people, but their character and history
 - Toponyms help bolster national place, by defining the "sorts of people" that live in them

Reactionary Sense of Place

- Belonging, rootedness, authenticity, heritage, mystical bonds
 - These terms risk to be connected to a very exclusive experience
- Place, Memory, Media
 - Heimat: 1930's displayed the prosperity and excitement in the German countryside, but what about the victims on the other side of it?
 - Memory is selective. Memory is partial. Memory is amoral
 - Graubünden, a Swiss traveling website tries to capture place by highlighting best parts of the country to potential tourists and travelers
- Our connections to place can lead to a sense of reactive inclusivity that can be related to
