built it **Politically Incorrect Guide to the Middle East** Martin Sieff, 2008-01-28 The Middle East is almost never off the front pages yet most Americans know little about the region Why The mainstream media and Ivy League academics instead of helping only make matters worse by casting everything in the usual politically correct mold Arab terrorists are just desperate freedom fighters and the region s one free democracy Israel is the oppressor not least because of its alliance with America And if Islamic extremism is a problem the establishment tells us it s only because it s rooted in that source of all evils religion A different strain of political correctness has seeped into some minds on the right most notably the Bush administration which so ready to buy into the egalitarian myths we are all taught believed that Western style democracy could flourish anywhere Now in The Politically Incorrect Guide to the Middle East veteran Middle East correspondent Martin Sieff puts the lie to all these myths and clich s giving you everything you need to know about the region to understand its past its present and its possible future The Politically Incorrect Guide to Pandemics Steven W. Mosher, 2022-07-26 Deadly plagues have ripped across the globe for centuries and will continue to do so in the future From the Black Death to Smallpox and the Hong Kong flu seven of the ten worst plagues in history originated in China But the Covid 19 pandemic was something entirely new a genetically engineered pathogen that was deliberately released upon the world for the geopolitical profit of a Communist government In The Politically Incorrect Guide to Pandemics Steven Mosher a leading authority on China devastates politically correct narratives about the Covid 19 pandemic and the deadliest plagues in history With expert insight he reveals Mountains of evidence that the Covid 19 pandemic originated in a Wuhan lab and not a wet market What life was like under plagues of the past and how these compare to the Covid 19 pandemic How Communist governments benefit economically and strategically from international plagues Chinese Communist Party source documents revealing viruses bioengineered to wreak global havoc The next pandemic may be the most devastating plague of all time The Politically Incorrect Guide to Pandemics sounds the alarm to prepare for a dangerous pandemic future The Golden Revolution John Butler, 2012-04-10 Why the gold standard is due for a comeback A reserve currency can only function as such if there is a general consensus that it provides a stable store of value Without this trust money no matter what form it takes will be abandoned either suddenly in a crisis or gradually over time in favor of something else The Golden Revolution looks at how the world is rapidly moving toward some form of global metallic standard in which money at least in official international transactions is linked directly to gold silver or both The practical reality of the transition to the coming global gold or bimetallic standard is going to be substantially different from the global fiat monetary and financial regime of today It is not just money that is going to change The nature and business of banking will also be affected as will finance in general Incisive and thoughtful The Golden Revolution is a treatise on the broad effects of the current and future monetary structure Looks at why the world is headed inexorably back towards a metallic money standard Explores what the transition period might look like including some historical examples of both orderly and disorderly transitions Examines how the world of banking finance

and investment including asset valuation and portfolio management techniques will work under a future gold standard and which industries countries and markets are likely to benefit and which are likely to suffer Full of advice on how investors can profit and protect themselves during this critical time of change the book knows that those who are prepared will prosper while those who won't stand to lose it all
