Portrait De Leopardi:

An Introduction to Leopardi's Canti Pamela Williams,1997 There is a sense in which one might say as Leopardi did say about poetry that his poems are born of illusion yet what they register is a lament over its loss and a persistent rejection of all deception The Canti are conspicuously influenced by illusion but paradoxically dominated by a continual taking the measure as it were of truth of a human and cosmic reality which simply is what it is In generalising his convictions the poet does make a certain claim on our belief and he challenges us to take what he says seriously However the merit of the poems themselves is the full expression of those convictions it is this aspect that this Introduction addresses and not whether we should agree or disagree with Leopardi Its aim is to explain in order to help appreciate what is found on the page It is an analysis of the poems and an attempt to create a coherent and comprehensive structure for students in which nearly all the Canti can be considered from several points of view

Archaeology of the Unconscious Alessandra Aloisi, Fabio Camilletti, 2019-07-10 In reconstructing the birth and development of the notion of unconscious historians of ideas have heavily relied on the Freudian concept of Unbewussten retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a psychoanalytic novel Italy's vibrant culture of the long nineteenth century characterised by the sedimentation circulation intersection and synergy of different cultural philosophical and literary traditions proves itself to be a privileged object of inquiry for an archaeological study of the unconscious a study whose object is not the alleged origin of a pre made theoretical construct but rather the stratifications by which that specific construct was assembled In line with Michel Foucault's *Archéologie du savoir* 1969 this volume will analyze the formation and the circulation across different authors and texts of a network of ideas and discourses on interconnected themes including dreams memory recollection desire imagination fantasy madness creativity inspiration magnetism and somnambulism Alongside questioning pre given narratives of the history of the unconscious this book will employ the Italian difference as a powerful perspective from whence to address the undeveloped potentialities of the pre Freudian unconscious beyond uniquely psychoanalytical viewpoints

The British Review ... ,1859 **Love, Drugs, Art, Religion** Brian R. Clack,2016-05-13 In this original and far reaching contribution to the philosophy of religion Brian R Clack examines the manner in which religious belief emerges from the turbulence and anxiety of human existence Taking his cue from Freud s suggestion that human life is so hard to bear that it requires nothing short of cultural and psychological palliative care Clack explores each of the palliative measures Freud catalogues intoxicants religion art and love and evaluates their role in the mitigation of suffering and the provision of the assistance required for an endurable life This examination provides the context for an investigation into the meaning and

function of religious belief when considered as a palliative Clack initially subjects religion to ferocious critique defending the psychoanalytic judgment that religious beliefs operate as wish fulfilling illusions but then elaborates a revised understanding of religion one in which comforting illusions are banished and in which religious belief faces up to reality and reconciles us both to the pains and disappointments of existence and to our nullity and inevitable annihilation in this genuinely interdisciplinary work Clack breaks new ground by using detailed explorations of the phenomena of drug use romantic love and the enjoyment of art in order to throw light on the meaning and nature of religion This book will be vital reading for anyone concerned with the fundamental questions of religious belief the psychoanalytic approach to culture or simply the unavoidable existential problems lying at the very heart of human life **MLN.** ,1923
