Facilities

Planning And Design: An Introduction For Facility Planners, Facility Project Managers And Facility Managers

(Second Edition) Jonathan Khin Ming Lian, 2022-12-28 This book focuses on the ten essentials of facilities planning and

design It covers topics such as strategic planning space standards architectural programming site selection master planning

environmental planning capital improvement planning workplace planning and design and space management Examples will

be drawn from the planning and design of airports and universities which are large organisations with extensive campuses

and are asset heavy in terms of buildings This second edition has been extensively updated with current and new examples

case studies and references By learning about the planning and design processes as it relates to facilities students and

facility professionals will be able to align facilities planning and design with the organisation s strategic priorities manage

design consultants by understanding the planning and design process manage the planning and design of spaces at different

scales and manage the use of existing space effectively The book is designed such that its chapters may be read either

sequentially or as individual standalone references or resources for specific aspects of facility planning management and design

Metrics, Mapping, and Modelling for Masterful Management in Higher Education Graham Glynn, 2025-04-22 More than just a book Metrics Mapping and Modelling for Masterful Management in Higher Education is a collaborative initiative to enrich management and communication within HEIs across the globe reduce reduplication and create an environment for shared knowledge and resources to benefit institutions everywhere
