Robert Morris Blind Time Drawings :

Robert Morris Haim Chanin Fine Arts, 2003-07-01 **Robert Morris** Robert Morris, Kenneth Surin, Nena Tsouti-Schillinger, 2003 **Robert Morris** Robert Morris, Centro per l'arte contemporanea Luigi Pecci, 2005 This catalogue brings together for the first time 81 of Robert Morris's Blind Time Drawings selected from the six series that make up the corpus of this work to which Morris has dedicated more than 30 years. The entire range is present from the early drawings of 1973 up to the Moral Drawings of 2000 with a particular emphasis on the fourth series, a group of works inspired by the writings of the philosopher Donald Davidson. Visually striking, the Blind Time Drawings, as the name implies, were executed by the artist with his eyes covered. Consisting of stark black and white contrasts, explosions of graphite and obsessive markings that move organically throughout the page, the works are anything but haphazard. Morris followed a strict plan when doing the works, and his writing, which describes his process, is instrumental to understanding them. In addition, these works are placed within the context of Morris's Minimalist and Conceptualist masterpieces, such as *Card File* 1962, *Mirrored Cubes* 1965 and *Portland Mirrors* 1977. *Robert Morris* Donald Davidson, 1992 **Robert Morris. Blind Time IV**, 1983

Drawing from the Modern: 1945-1975 Jodi Hauptman, Gary Garrels, Museum of Modern Art (New York, N.Y.), 2004. Published on the occasion of the exhibition held at the Museum of Modern Art, New York, Mar 30 - Aug 29, 2005. **Robert Morris. Blind Time II.**, 1977 **Performance Drawing** Maryclare Foá, Jane Grisewood, Birgitta Hosea, Carali McCall, 2020-09-03. What is performance drawing? When does a drawing turn into a performance? Is the act of drawing in itself a performative process, whether a viewer is present or not? Through conversation, interviews, and essays, the authors illuminate these questions and what it might mean to perform and what it might mean to draw in a diverse and expressive contemporary practice since 1945. The term performance drawing first appeared in the subtitle of Catherine de Zegher's *Drawing Papers 20: Performance Drawings*, in particular with reference to Alison Knowles and Elena del Rivero. In this book, it is used as a trope and a thread of thinking to describe a process dedicated to broadening the field of drawing through resourceful practices and cross-disciplinary influence. Featuring a wide range of international artists, this book presents pioneering practitioners alongside current and emerging artists. The combination of experiences and disciplines in the expanded field has established a vibrant art movement that has been progressively burgeoning in the last few years. The Introduction contextualises the background and identifies contemporary approaches to performance drawing. As a way to embrace the different voices and various lenses in producing this book, the authors combine individual perspectives and critical methodology in the five chapters. While embedded in ephemerality and immediacy, the themes encompass body and energy, time and motion, light and space, imagined and observed, demonstrating how drawing can act as a performative tool. The dynamic interaction leads to a collective understanding of the term performance drawing and addresses the key developments and future directions of this applied drawing process. **Notions of Temporalities in Artistic Practice**

Anamarija Batista,2022-07-04 The reflections on historical and contemporary positions assembled here shed light on concepts of temporalities in the context of artistic practices In the 1960s and 1970s the pursuit for the situational processual and actual stirred up artistic and theoretical fields Nowadays contemporary practices expand on these subjects by exploring the notion of anachronism the impermanence of one s own corporeality together with the performative and ephemeral qualities of the sonic amongst other relevant concepts The goal of this publication is to offer a deep dive into situation specific settings and to fundamentally explore how temporality is able to initiate action and structure our perception thereby affecting our bodies our senses how we communicate and how the present moment is shaped **Robert Morris** Samuel
