Concluding the Review

Before using the device for the first time or the battery is not working a long time, you must first charge the battery. In the state of the present, it is all phones around that have the battery cover which can charge the battery.

Only use the company's matching changes, before and after photos using the changes in style with different accessories reflecting the battery expansion or cell changes for equipment in the condition of changing, all right down within the all-right down point. Expansion that the battery has been completed (when the battery is fully charged) the screen will show a warning message.

When the power is lost, the screen will shut down automatically.
