Rathi,2022-09-06 Tourism is the activities of people traveling to and staying in places outside their usual environment for leisure business or other purposes for not more than one consecutive year The word tourist first appeared in the English language in the year 1800 Tourism is a dynamic and competitive industry that requires the ability to adapt constantly to customers changing needs and desires as the customer s satisfaction safety and enjoyment are particularly the focus of tourism businesses Tourism in real sense is essentially a pleasure activity In this money earned in one s normal place is spent in the places visited It involves a discretionary use of time place and money In short we can say that tourism is travel which is temporary voluntary and without any remunerative employment Tourism supports 8 percentage of the world s employment New Directions for Smallholder Agriculture Peter B. R. Hazell,Atiqur Rahman,2014-03-06 The majority of the poor and hungry people in the world live on small farms and struggle to subsist on too little land with low input low yield technologies At the same time many other smallholders are successfully intensifying and succeeding as farm businesses often in combination with diversification into off farm sources of income This book examines the growing divergence between subsistence and business oriented small farms and discusses

how this divergence has been impacted by population growth trends in farm size distribution urbanization off farm income diversification and the globalization of agricultural value chains It finds that policy makers need to differentiate more sharply between different types of small farms than they did in the past both in terms of their potential contributions towards achieving national economic growth poverty alleviation and food security goals and the types of assistance they need The book distinguishes between smallholders that are business oriented subsistence oriented and at various stages of transition to the non farm economy and discusses strategies appropriate for assisting each type The book draws on a wealth of recent experience at IFAD and elsewhere to help identify best practice approaches **Annual Report on Exchange**

Jingyuan,Richards, Joseph,2021-06-11 E collaboration is a tool that breaks the boundaries of activities within and between organizations E collaboration technologies are making it easier than ever for people to work together no matter where they happen to be Succeeding with collaboration at a level where it represents a competitive advantage requires a broad approach Internal social networks can circumvent bureaucratic boundaries and facilitate information sharing activities among individuals across hierarchies and divisions or departments This allows organizations to acquire resources or competencies from external sources that otherwise would be difficult or expensive to access Accordingly organizations focus more on their own areas of competence and gain a competitive advantage by acquiring richer content and better solutions in a creative and cost effective way Challenging times can provide new opportunities that need to be detected at the right time There must be many other sources of competitive advantages which should support the main source of competitive value

Competitive advantage may be gained if the organization is able to find sources of competitive advantage in time of economic crises Organizations have rapidly deployed technology solutions such as collaboration tools and cloud computing which enable their employees to work remotely and continue these organizational operations especially during times of crisis E Collaboration Technologies and Strategies for Competitive Advantage Amid Challenging Times focuses on e collaboration technologies strategies and solutions from a perspective of organizational competitive advantage including e collaboration technologies situation and solutions innovation systems competition and strategies marketing and growth capabilities The book presents a full understanding on e collaboration technologies strategies and solutions in organizations and provides insight for how to develop e collaboration technologies strategies and solutions more generally so as to simultaneously leverage potential benefit and guard against potential risk promoting organizational competitive advantage amid challenging times This book is ideally intended for policymakers government officials corporate heads of firms managers managing directors practitioners researchers academicians and students seeking information on the e collaboration technologies being employed in businesses in times of crisis
