The Commercial Motor ,1980 *The Leyland Octopus* Graham Edge,2004-09-14 Rigid eight wheelers with internal combustion engines were developed as a response to requirements and opportunities embedded in the 1933 Road and Rail Traffic Act Although AEC was first in the field in late 1934 or early 1935 Leyland was able to announce its Octopus By the Second World War the Octopus had become a favourite with operators known to carry a legal payload economically and reliably After the war the driveline of the Octopus basically remained unchanged until 1960 Specification options were few yet the model remained a market leader with lengthy waiting lists for new chassis The model remained in production until the late 1970s and as AEC authority Graham edge writes For most of its productive life the Leyland Octopus was the definitive British eight wheeler lorry The many superb photographs in this book range from shots from the 1930s including what is probably the first Octopus chassis and a rare TEW tipper to 1979 and an Octopus 2 which started service that year with a compacting refuse body The text covers the full production story and there are Appendices which give chassis and engine details **Highway Safety Literature** ,1979 **Fifty Shades of Tarmac** Andy MacLean,2015-08-12 It was 1972 It was summer and the living was easy Arthur Jackson has a good job no ties and no responsibilities but it is not enough he wants adventure and he wants to see the world Based on the author s real life experiences and illustrated with photographs from the time Fifty Shades of Tarmac tells the fictional story of how a naive young British truck driver obtains his first job driving a Mack on the continent of Europe His first trip with all its pitfalls and novel experiences takes him from Rotterdam to Bremerhaven via Moutiers and Salzburg and then back to Rotterdam It is told with humour introducing a number of colourful characters and providing a personal and unusual insight into the life of a truck driver in the 70s at a time when Europe still had frontier posts and custom restrictions It will be of interest to truck drivers Mack fans and other transport enthusiasts and those who simply want to learn more about the social history of Europe in the 1970s **You Call, We Haul** Mat Ireland,2019-08-01 Best known for founding international haulier Trans UK Bob Carter was involved in the ground breaking changes occurring in British transport of the 60s and 70s Beginning in the army where he witnessed nuclear testing on Christmas Island in the 1950s Carter went on to be a driver office worker and finally company owner Never afraid to get his hands dirty Bob was able to turn his hand to any aspect of his business operation from repairing mechanical defects to operating forklifts and driving his own trucks In 1975 he set out on Trans UK s maiden run to Iran in his Humber Sceptre with four of his trucks in convoy the first trip of many for the company The denationalization of BRS and the implementation of the O licence the rapid growth of privately owned haulage companies combined with the Middle East oil boom of the 70s all helped Bob to develop a successful British and international transport operation Including nearly 300 previously unpublished photos You Call We Haul is an inspirational story which will appeal to those with an interest in the heyday of Middle East travel and those with a general love of great British transport companies Subject Middle East Studies
