Do a little research before creating your scavenger list to learn about the plants, trees, flowers and animals that are common in the area. All parks have rules and regulations. Learn about the rules at the park you plan to visit if you're visiting a national or state park. Rules are used to protect the park and its environment as well as to keep the people who use the park safe. Take along a camera so that you won't have to take any items from the park. The photos kids take can be used in a nature journal and with their study.
