

Superior Results!

Use the Scotts Turf Builder EdgeGuard Mini Broadcast Spreader to apply grass seed and fertilizer in spring, summer or fall. The smaller size spreader holds up to 5,000 sq. ft. of Scotts Lawn Care Products and is delivered ready to use and pre-calibrated; no assembly required.

Spreaders provide uniform coverage of granular products. Without one, you may end up with uneven coverage of fertilizer or control products that can result in uneven feeding, weed, disease, or insect control. Spreaders can also be used to spread grass seed in your lawn or to distribute ice melt on walkways and driveways.

See product labels for correct spreader settings, usage and application instructions.

Features

More Accurate Coverage

Precision rate settings control panel to ensure accurate coverage.

Easy to Treat Smaller Areas

Scotts smallest walk-behind spreader that holds up to 5,000 sq. ft. of Scotts Lawn Products.

Exclusive Scotts EdgeGuard Technology

When engaged it will block off right side of spreader pattern to prevent product from spreading onto non-lawns areas.

Selecting the right spreader

Choosing the right spreader for your project is key to ensuring success.

Select the spreader you need based on the area you will be treating. Broadcast spreaders throw product in a 180-degree swath, creating a wide coverage pattern while drop spreaders are more targeted. There are three basic types: Walk-behind, Hand-Held and Drop Spreaders.

Walk-behind Broadcast

Best for areas over 5,000 sq. ft.

Hand-Held Broadcast

Great to treat small areas under 5,000 sq. ft.

Drop Spreader

Perfect for medium-sized areas that need precise application (such as heavily landscaped areas or tight curves).
