

Oedipus Rex and the Interpretation of Literature

A Response to Gaskin

Richard Gaskin recently published a highly significant and deeply insightful philosophical study of tragic literature.¹ He begins the work with a discussion of the freedom and responsibility of Oedipus in Sophocles's *Oedipus Rex*, defending the related views that Oedipus's actions are free, that he is guilty of and blameworthy for his parricide and incest, and hence that he is not undeserving of the 'punishment' he inflicts on himself at the end of the play.

My aim is not to argue that Gaskin's interpretation is mistaken, but to point out that, on the basis of a position on free will no less credible than Gaskin's and of interpretations of crucial passages in the text no less plausible than his, a defence can be constructed of the old view that Sophocles' play is a "tragedy of destiny".² I shall conclude with an important lesson for any literary interpreter.

Gaskin presupposes *compatibilism*, the view that freedom and responsibility are consistent with *determinism*, according to which all actions are determined or caused by events beyond the agent's control.³ Reasonably enough, he does not deviate from his main discussion to provide arguments for compatibilism. Its attractions are obvious: it avoids the 'miracles' of libertarian agent-causation, in which the *agent*, somehow mysteriously independent of the causal nexus, freely brings about their action; and it leaves in place within the causal order not only our actions but our common-sense attributions of freedom and responsibility.
