Maloney, 1997 Perry's Chemical Engineers' Handbook Robert H. Perry, Don W. Green, 1998-10-01. Perry's is the most authoritative, comprehensive, and best-selling book in chemical engineering. In order to make it portable, easily searchable, and to add some interactive features to it, we have decided to develop an electronic version of this classic work. The electronic product will maintain the integrity of the handbook so that print users will feel completely comfortable with electronic. This means that the extensive table of contents and index will be hyperlinked to the appropriate section of the book. The electronic product will have complete Boolean search capability. The user will also be able to print out page or pages of the book they desire. Another important feature of the electronic version of Perry's is that there will be active tables, graphs, and charts that the user can manipulate. This product will run on both IBM Compatibles and Macintosh computers. **Perry's Chemical Engineers' Handbook, 9th Edition** Don W. Green, Marylee Z. Southard, 2018-07-13. The Handbook of Nonwoven Filter Media Second Edition provides readers with a fundamental understanding of nonwoven filter media. It is one of the few books dealing exclusively with the subject and is primarily intended as a reference for people in the nonwovens industry, industry and academic researchers, technical marketing and quality control personnel and universities offering courses in filtration theory and practice and nonwovens technology. The book includes applications for gas, liquid and engine filtration and identifies the types of filter media used in these applications. The various separation technologies that can be achieved with nonwoven filter media are revealed and discussed. Theoretical presentation is based on flow through porous media and is developed around a nonwovens or engineered fabrics orientation. Presents the latest information on legislative, regulatory, environmental and sustainability issues affecting the nonwovens and filtration industries. Includes a comprehensive discussion of Computational Flow Dynamics (CFD) by Dr. George Chase, University of Akron, USA. Includes the latest Global and North American marketing statistics for filters and filter media prepared by Brad Kalil of INDA.
