Positivity Of Prayer Criticism Of Praying:

Positivity of Prayer Ursula Nelson,2014-12-26 Prayer is a form by which we connect to god and is something individuals do to ask for or give thanks for a want or a sought after or favorable change There are a lot of different ways to pray but they all involve thinking of what you require There are a lot of different ways to view the process of turning our ideas into realities or experiencing them in the tangible world but they all involve thinking of what you wish Read this book and turn your prayers into reality

Prayers of Jewish Women Markus H. McDowell,2006 Markus McDowell examines how the literature of the Second Temple period portrays women at prayer through an examination of the literary context and character of those prayers The goal of this work is a greater understanding of how women were portrayed in literary sources and an offering of some fresh insights for the study of women s religious and social roles in the ancient world The texts are analyzed and categorized within five areas social location content form occasion and gender perspective The prayers are also compared and contrasted with men s prayers in the same sources The analysis includes locating as much as possible the historical literary and cultic context of each document in which these prayers appear By examining all prayers in these texts uttered by women not just prayers of named or prominent women and then comparing them with all the prayers of men in those same texts certain patterns appear This study adds to our knowledge of women and religion in Second Temple Judaism by primarily exploring patterns that appear among the prayers in the literature of the Second Temple period While there are fewer prayers by women than men in this literature the prayers of women are not portrayed as significantly different from those of men in terms of social location content form or occasion At the same time the prayers of women exhibit other patterns of language and in a minor way form and occasion that differ from the prayers of men

Brad H. Young, 2007-06-01 *Meet the Rabbis* explains to the reader how rabbinic thought was relevant to Jesus and the New Testament world and hence should be relevant to those people today who read the New Testament. In this sense rabbinic thought is relevant to every aspect of modern life. Rabbinic literature explores the meaning of living life to its fullest in right relationship with God and humanity. However many Christians are not aware of rabbinic thought and literature. Indeed most individuals in the Western world today regardless of whether they are Christians, atheists, agnostics, secular community leaders or some other religious and political persuasions are more knowledgeable of Jesus' ethical teachings in the Sermon on the Mount than the Ethics of the Fathers in a Jewish prayer book. The author seeks to introduce the reader to the world of Torah learning. It is within this world that the authentic cultural background of Jesus' teachings in ancient Judaism is revealed. Young uses parts of the New Testament, especially the Sermon on the Mount, as a springboard for probing rabbinic method. The book is an introduction to rabbinic thought and literature and has three main sections in its layout: Introduction to Rabbinic Thought, Introduction to Rabbinic Literature, and *Meet the Rabbis*, a biographical description of influential Rabbis from Talmudic sources.

Spirituality and Ageing Albert Jewell, 1999 *Spirituality and Ageing* presents the experience of ageing as an opportunity for spiritual reflection and affirmation of life. The contributors are religious and spiritual leaders and ethical thinkers from a range of different backgrounds. They define spirituality not just as a religious concept but as the fulfilment of the universal human need for purpose, values and relationships, a sense of wholeness in life. This spiritual dimension helps people face the emotional and psychological challenges of growing older, such as memory loss, dementia, bereavement and fear of death. Existing systems of social care often focus on the material and physical needs of older people; this collection proposes that the spiritual needs of older people are as vital a consideration for their welfare. Through their spirituality, older people can attain a fuller appreciation and understanding of life, which can also inform and enrich the lives of others. *Spirituality and Ageing* will be an invaluable resource to carers looking for a holistic and more reflective approach to work with older people.

The Lure of Transcendence and the Audacity of Prayer Samuel E. Balentine, 2022-06-24 The discourse of prayer responds to the abiding lure of transcendence. From Gilgamesh to the primordial human beings in Eden to Odysseus, the quest for ultimate truths has summoned forth all manner of human effort: courageous, desperate, pious, impious, successful, failed, invited, forbidden, and like all such lures, one can never be certain whether the glimmer of transcendence is that of a bright and shining star that illuminates the shadows or only a shiny object that seduces one into an inescapable darkness, a fishing lure, for example. In this study, Samuel E. Balentine demonstrates how prayer's invocation of God transgresses the limits of human beings. The author shows how inviting, let alone commanding God to speak, may be the acme of bardic pretension, but in the ancient world such transgression characterizes the audacity of
