

SOURCE C

This extract focuses on the reasons for Lenin's New Economic Policy.

In March 1921 Lenin announced the end of War Communism and the inauguration of a New Economic Policy. The NEP was based on the following:

Requisitions from peasants were ended and a fixed tax in kind (grain) was substituted – which by 1924 had become a money tax. Once this tax was paid, the peasant was free to do what he liked with what remained. He could use it himself, sell it to the state or sell it on the open market which was now made legal. Private enterprise was allowed in trade and small-scale industry. Compulsory labour ceased; labour armies were stopped; bonuses were introduced for extra work. The currency was back on a sound footing and a regular system of taxation was introduced. Large-scale industry (coal, iron, steel, oil, electricity, railways) remained state-owned.

[Adapted from: Russia in Revolution by J Robertson]

1.3 Refer to Source C.

1.3.1 Explain in your own words how Lenin's New Economic Policy was implemented.

(3)

The New Economic Policy was a drastic adaptation to the war communist policy, which allowed for a free market, private trade and enterprise. Private trade was no longer illegal, or government centralised. People paid a portion of their goods or income in the form of tax and were permitted to sell the rest on the open market. This stimulated the economy and encouraged economic growth.

1.3.2 In what ways was the New Economic Policy different to Lenin's ideal of a communist state? Support your answer with evidence from the source.

(3)

A communist state is one in which all individuals are equal. Under the NEP certain individuals profited more than others, which is a distinctly capitalist feature. This automatically created a sense of inequality and reduced the government's power and influence.

1.3.3 What was Lenin's intention for the state in creating the New Economic Policy?

(2)

It was Lenin's intention to recover the economy and to suppress peasant unrest, while still providing for the needs of the government.

SOURCE D

This source shows some of the production figures in Russia from 1913 to 1926.

political patronage Xi sees himself as a sort of modern day emperor determined to restore China's past greatness. Many experts assume that Xi's nakedly neo-imperial scheme couldn't possibly work. Freymann shows how wrong they are. China isn't preying on victims. Freymann argues it's attracting willing partners including Western allies from Latin America to Southeast Asia to the Persian Gulf. Even in countries where OBOR megaprojects fail, Freymann finds that political leaders still want closer ties with China. Freymann tells the monumental story of Xi's project on the global stage. Drawing on primary documents in five languages, interviews with senior officials, and on the ground case studies from Malaysia to Greece, Russia to Iran, Freymann pulls back the veil of propaganda about OBOR, giving readers a page-turning world tour of the burgeoning Chinese empire, a guide for understanding China's motives and tactics, and clear recommendations for how the West can compete.

Pacific Rural Press, 1902 **Coal**, 1882 Rare Earth Frontiers Julie M. Klinger, 2018-01-15

Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics, green energy, and medical technologies, and essential telecommunications and defense systems. Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead, and this means the implications of their extraction are global. Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places. Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths. She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power. These include legally and logistically forbidding locations in the Amazon, Greenland, and Afghanistan, and on the Moon. Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents, this book examines the production of the rare earth frontier as a place, a concept, and a zone of contestation, sacrifice, and transformation.

Civil War Extra: A newspaper history of the Civil War from Nat Turner to 1863 Eric Caren, 1999. This two-volume collection of newspapers is one of the most important Civil War publications ever produced, and it brings the events of the war vividly in focus. A unique of the moment perspective, it begins with the Nat Turner slave insurrection and covers every battle, many by the local papers, for a truly firsthand up-close view. Lincoln's election, inauguration, and assassination are given full coverage. Caren's extensive collection includes many extremely rare Southern editions which would never be seen except in this remarkable publication. Loaded with engravings depicting battles, military leaders, and maps, this is an absolutely essential addition to any enthusiast's collection.

National Year Book William Waite Beardsley, 1962. An encyclopedic supplement and review of national and international events of **The Commercial and Financial Chronicle**, 1908 **School Library Journal**, 1985
