Sustainable Retrofitting of Commercial Buildings Richard Hyde,Nathan Groenhout,Francis Barram,Ken Yeang,2015-01-28 Despite recent improvements in energy efficiency being made in new build it is important that the existing commercial building sector also take action to meet emission reduction targets The objectives and challenges of such action will reduce the risk of the sector becoming obsolete due to high energy use and poor environmental performance This book presents a theory based practice support methodology to deal with sustainable retrofitting opportunities for existing commercial buildings in warm climates using bioclimatic design as the basis The book has four main parts focusing on eco design and renovation bioclimatic retrofitting technological and behavioural change and case studies of retrofitting exemplars In the first part the context of climate change effects on design and renovation at the city scale is discussed The second part looks at bioclimatic retrofitting as a design guide for existing buildings highlighting the significance of architectural design and engineering systems for energy performance The technological and behavioural contexts of the existing building sector policies modelling monitoring and trend analysis in respect to energy and environmental performance are covered in part three The final part gives some case studies showing the effectiveness of strategies suggested for effective environmental performance This book is a must have guide for all involved in the design and engineering of retrofitting projects in warm climates

Construction Cost Management Keith Potts,Nii Ankrah,2014-01-23 In this updated and expanded second edition Keith Potts and Nii Ankrah examine key issues in construction cost management across the building and civil engineering sectors both in the UK and overseas Best practice from pre contract to post contract phases of the project life cycle are illustrated using major projects such as Heathrow Terminal 5 Crossrail and the London 2012 Olympics as case studies More worked examples legal cases case studies and

current research have been introduced to cover every aspect of the cost manager's role. Whole life costing, value management and risk management are also addressed and self-test questions at the end of each chapter support independent learning. This comprehensive book is essential reading for students on surveying and construction management programmes as well as built environment practitioners with cost or project management responsibilities.

Building Cost Planning for the Design Team Jim Smith, D M Jaggar, Peter Love, 2016-02-26

Cost management of all building projects has become increasingly important as clients in the public and private sector demand the highest quality cost planning services with accurate budgeting and cost control. All members of the design team must integrate their activities to ensure that a high quality project is delivered on time and within budget. This book considers building cost planning and cost control from the client and the design team's perspective where all decisions whether concerned with design cost, quality, time, value or sustainability are taken as being interrelated. The latest Royal Institute of British Architects (RIBA) Plan of Work and the New Rules of Measurement for Early Stage Estimating and Cost Planning issued by the Royal Institution of Chartered Surveyors (RICS) have been incorporated into this new text. The book follows the building design cost planning process from the crucial inception stages and then through all the design stages to the completion of the technical design contract documentation and the tender. It provides a template for good cost planning practice. An essential addition to this third edition is the introduction of integrated design and documentation processes captured in building Information modelling (BIM) on line cost databases and computerised methods of cost planning. The integrated approaches are explained and provide vital information and knowledge for practitioners involved in building projects. All stakeholders involved in development and design and client teams in public and private sector policy making and implementation need to understand the new approaches to design management processes and how cost planning and design approaches are adapting to using the new technology in practice. The interactive style using in-text and review questions makes this ideal for students and practitioners alike in property, architecture, construction, economics, construction management, real estate, engineering, facilities management and project management.

data protection regime The third part provides a detailed treatment of the environmental information regime This recognises the treaty provenance of the regime and its distinct requirements The fourth part continues to provide the most thorough analysis available of the Freedom of Information Act and its Scottish counterpart As with earlier editions every tribunal and court decision has been reviewed and where required referenced The fifth part considers other sources of information rights including common law rights local government rights and subject specific statutory information access regimes eg health records court records audit information etc The final part deals with practice and procedure examining appeal and regulatory processes criminal sanctions and so forth The second volume comprises extensive annotated statutory material including the DPA 2018 the GDPR FOIA subordinate legislation international conventions and statutory guidance The law is stated as at 1st February 2020

Australian Periodicals in Print, 1987 *Emerging Topics and Controversies in Neonatology* Elaine M. Boyle, Jonathan Cusack, 2020-02-05 This textbook addresses the themes that are at the forefront of neonatal clinical care and research based on natural divisions in care during pregnancy and postnatally by gestational age at birth The book offers a unique approach in that it proposes discussion of important general principles underpinning neonatal care that are not addressed in most general neonatology textbooks such as ethical issues counselling effective training methods quality and safety among other subjects These are fundamental aspects and challenges that need to be appreciated by senior clinicians A chapter authored by parents describing their perspectives of neonatal intensive care is unique and will be highly educational with the potential to influence the way in which individuals view and deliver neonatal care The authors discuss common and important conditions to promote adoption of sound evidenced based practice where this is available However where evidence is limited as is the case in many areas of neonatal practice the authors aim to encourage critical thinking and evidence appraisal which are necessary skills for busy clinicians wishing to filter evidence to guide delivery of care This text is suitable for senior trainees wishing to pursue a career in neonatal medicine early career neonatologists and paediatricians with an interest in neonatology It is also of interest to established neonatologists wishing to update their neonatal knowledge The content is based on the RCPC Level 3 curriculum and addresses important topical and or controversial aspects of neonatal care

Labor and Global Justice Mary C. Rawlinson, Wim Vandekerckhove, Ronald M. S. Commers, Tim R. Johnston, 2014-10-30 Labor and Global Justice Essays on the Ethics of Labor Practices under Globalization combines conceptual and theoretical perspectives across a multiplicity of relevant differences both geographical and disciplinary to develop a transnational perspective on labor and justice Through its multidisciplinary transnational approach and its engagement with public policy the contributors advance urgent contemporary debates around work and clearly demonstrate the necessity of articulating the rights of labor to any global ethics or to any concept of global justice Together the chapters make evident why justice requires both theoretically and practically a rethinking and rearticulation of the relation between labor and capital Framing the theoretical and practical question of justice in a new way the editors have gathered addresses

scholars across multiple disciplines including philosophy international relations and the social sciences As the volume emphasizes the connection between the concept of justice and real public policy it also appeals to human rights workers and labor organizers as well as those who make the public policies that establish the relation between labor and capital just or unjust and that determine the well being of workers for good or ill *Rawlinsons Construction Cost Guide 2024* Rawlinsons Quantity Surveyors and Construction Cost Consultants,2024 **ACT for Gender Identity** Alex Stitt,2020-02-21
