willing to love her Or is there something more preventing her from sharing her heart **Our American Sisters** Jean E. Friedman, William G. Shade, 1982 *Sibling Relationships* Prophecy Coles, 2018-04-24 For this volume the author has brought together a group of distinguished writers to explore a wide range of issues affecting sibling relationships This exciting collection of papers addresses a long neglected subject in psychoanalytic thinking Since Sigmund Freud psychoanalytic attention has focused firmly on the Oedipal triangle and as a consequence sibling relationships have languished in virtual oblivion In recent years the importance of siblings has started to be investigated but we are still at the beginning of formulating theory on this subject This book raises fascinating issues for therapists who are forging new forms of thought on the interplay of sibling relationships Contributors Leonore Davidoff R D Hinshelwood Vivienne Lewin Juliet Mitchell Elspeth Morley Estelle Roith Margaret Rustin Michael Rustin Jennifer Silverstone Harriet Thistlethwaite and Gary Winship Sisters and Lovers Megan Jennaway, 2002-11-19 The Balinese devotion to their temples is both legendary and conspicuous but the ways in which they enshrine their innermost desires have long been hidden This ethnography draws back the veil by focusing on the romantic experiences of women in a rural village Punyanwangi in North Bali from adolescence to maturity Delving into the intensity of passion that exists just below the harmonious veneer of traditional patterns of courtship and marriage motherhood and connubial fidelity this book overturns Margaret Mead's assertions of passivity in Balinese social life Punyanwangi's proximity to a thriving tourist center allows Megan Jennaway to explore as well the striking gender disparities in the ways sexuality and desire are culturally mediated Aside from service work women are excluded from entering the tourist domain yet male sexual adventurism is expected and even encouraged The bodies of foreign women are thus invested with potent fantasies of exotic desire while those of local women are muted denied legitimate avenues of expression The author invokes Post Freudian and feminist concepts of sexuality to explain culturally specific psychiatric disorders to which Balinese women are prone interpreting them as expressions of frustrated desire She thus convincingly reveals Balinese society as anything but unemotional or stagnant Rather it is swept along by currents of emotionally charged desire By allowing key informants to tell their stories in their own voices and by skillfully interweaving fictionalized interludes the author gives us not only a rigorously researched ethnography but an intimate and fully realized portrait of Balinese women's innermost desires Avatar and Nature Spirituality Bron Taylor, 2013-09-30 Avatar and Nature Spirituality explores the cultural and religious significance of James Cameron's film Avatar 2010 one of the most commercially successful motion pictures of all time Its success was due in no small measure to the beauty of the Pandora landscape and the dramatic heart wrenching plight of its nature venerating inhabitants To some audience members the film was inspirational leading them to express affinity with the film's message of ecological interdependence and animistic spirituality Some were moved to support the efforts of indigenous peoples who were metaphorically and sympathetically depicted in the film to protect their cultures and environments To others the film was politically ethically or spiritually

dangerous Indeed the global reception to the film was intense contested and often confusing To illuminate the film and its reception this book draws on an interdisciplinary team of scholars experts in indigenous traditions religious studies anthropology literature and film and post colonial studies Readers will learn about the cultural and religious trends that gave rise to the film and the reasons these trends are feared resisted and criticized enabling them to wrestle with their own views not only about the film but about the controversy surrounding it Like the film itself Avatar and Nature Spirituality provides an opportunity for considering afresh the ongoing struggle to determine how we should live on our home planet and what sorts of political economic and spiritual values and practices would best guide us

Feminism and Modernity in Anglophone African Women's Writing Dobrota Pucherová, 2022-07-29 This book re reads the last 60 years of Anglophone African women's writing from a transnational and trans historical feminist perspective rather than postcolonial from which these texts have been traditionally interpreted Such a comparative frame throws into relief patterns across time and space that make it possible to situate this writing as an integral part of women's literary history Revisiting this literature in a comparative context with Western women writers since the 18th century the author highlights how invocations of tradition have been used by patriarchy everywhere to subjugate women the similarities between women's struggles worldwide and the feminist imagination it produced The author argues that in the 21st century African feminism has undergone a major epistemic shift from a culturally exclusive to a relational feminism that conceptualizes African femininity through the risky opening of oneself to otherness transculturation and translation Like Western feminists in the 1960s contemporary African women writers are turning their attention to the female body as the prime site of women's oppression and freedom reframing feminism as a demand for universal human rights and actively shaping global discourses on gender modernity and democracy The book will be of interest to students and researchers of African literature but also feminist literary scholars and comparatists more generally

how we think about Victorian women's changing economic rights and their representation in nineteenth century novels The reform of married women's property law between 1856 and 1882 constituted one of the largest economic transformations England had ever seen as well as one of its most significant challenges to family traditions By the end of this period women who had once lost their common law property rights to their husbands reclaimed their own assets regained economic agency and forever altered the legal and theoretical nature of wedlock by doing so Yet in literary accounts reforms were neither as decisive as the law implied nor limited to marriage Legal rights frequently clashed with other family claims and the reallocation of wealth affected far more than spouses or the marital state Competition between wives and children is just one of many ways in which Victorian fiction suggests the perceived benefits and threats of property reform In nineteenth century fiction portrayals of women's claims to ownership provide insight into the social networks forged through property transactions and also offer a lens to examine a wide range of other social matters including testamentary practices wills and copyright law economic and evolutionary models of mutuality the twin dangers of greed and generosity inheritance and custody rights the economic ramifications of loyalty and family obligation and the legacy of nineteenth century economic practices for women today Understanding the reform of married women's property as both an ideologically and materially substantial redistribution of the nation's wealth as well as one complicated by competing cultural traditions this book explores the widespread ways in which women's financial agency was imagined by fiction that engages with but also diverges from the law in accounts of economic choices and transactions Repeatedly narratives by Austen Dickens Gaskell Trollope Eliot and Oliphant suggest both that the law is inadequate to account for the way that property enables and disrupts relationships and that the form of the Victorian novel in its ability to track intimate and intricate exchanges across generations is better suited to such tasks

True Sisterhood Marilyn F. Motz, 1984-06-30 Home and family for a woman of the nineteenth century represented a sphere much broader than the term implies today A woman's duties as sister and daughter continued basically unchanged even after she had assumed the roles of wife and mother This created a female centered kin network which went far beyond the fragile nuclear family and which insured lifelong security in what men and women viewed as an essentially hostile world The female family is vividly portrayed in *True Sisterhood* where Marilyn Ferris Motz examines the lives of white Protestant native born American women living in Michigan between 1820 and 1920 and the kinship networks to which they belonged networks that often extended east to New England and the

Middle Atlantic states and westward as far as California The University of Michigan's Bentley Library collections of the correspondence diaries photographs and other documents of numerous family groups have provided the primary resources for this study of thirty extended families Focusing on personal interaction within the family Motz shows women playing an active role that is not suggested by observation of residence patterns household composition or legal distribution of authority The book reveals women's use of language to maintain personal relationships to persuade and manipulate and to obtain support Thus the power base of the woman her informal networks based on personal interaction persuasion and sense of obligation become visible True Sisterhood shows that women's influence was not merely a fabrication of the literature of what has come to be termed the cult of domesticity but was a reality within many nineteenth century homes **Margaret Mead Made Me Gay** Esther Newton, 2000-11-22 A collection of essays by a pioneering queer anthropologist Integrative Feminisms Angela Miles, 2023-03-08 Integrative Feminisms presents a unique discussion of feminist radicalism in North America in the context of feminism's global development since the 1960s Across divergent agendas Angela Miles illuminates the transformative power common to apparently diverse radical eco Black socialist lesbian and third world feminists Drawing on interviews with activists historical and documentary research and her own participation the book delivers a unique and powerful analysis of concentric feminisms in a transnational context **Sing Me Back Home** Kristina Jacobsen, 2024-10-01 Set on the Italian island of Sardinia Sing Me Back Home explores language and culture through songwriting as an ethnographic method Based on thirteen months of ethnographic fieldwork writing songs with Sardinian musicians artisans shepherds poets and language activists Kristina Jacobsen asks How are Sardinian lives and language ideologies narrated against the backdrop of American music The book shows how Sardinian musicians sing their own history between the lines It reveals how Sardinian songs become a site of transduction where through the process of songwriting recording and performance the energy from one genre of music and lingua culture is harnessed to signal another one much closer to home Sing Me Back Home is accompanied by original songs written and recorded in the field with links to songs in each chapter It includes songwriting prompts and lyrics a glossary of key terms and photographs from the field Drawing on work from critical collaborative research auto ethnography public anthropology arts based research and ethnographic poetry this sensory ethnography offers new ways for us to hear culture through stories and songs
