

First-Time Operation (continued)

11. Start and stop recording.

Start and stop recording by pressing and releasing the thumb trigger. You do not have to hold the thumb trigger to record. The *REC* indicator appears in the viewfinder when the camcorder is recording.

Notes: The tally light flashes during record-pause and goes off when the camcorder is recording or the *ON/POWER SAVE* lever is placed in the *POWER SAVE* position.

If you do not record within five minutes, the camcorder will automatically shut off to prevent excessive tape wear. To resume recording press the thumb trigger twice.

Any material recorded on the tape will automatically be erased if you record over it.

To monitor the audio being recorded, attach an optional earphone to the earphone jack.

12. Play back what you have recorded.

- Press the thumb trigger to stop recording.
- Place the *POWER* switch in the *PLAY* position.
- Press the *REW* (rewind) button to rewind the tape.
- Then press the *PLAY* button to play back the tape in the electronic viewfinder.
- Press the *STOP* button when you are finished playing back the tape.
- *Details on viewfinder playback are on page 31.*
