Journal of Neuropsychiatry, 1962 *Sessional Papers - Legislature of the Province of Ontario*, Ontario. Legislative Assembly, 1915 **Assessing with Respect**, Starr Sackstein, 2021-03-24. In this timely and thoughtful call to action, author and educator Starr Sackstein examines the critical intersection between assessment and social and emotional learning (SEL), particularly as it affects students of color and other marginalized groups. The book addresses the five SEL competencies identified by the Collaborative for Academic, Social and Emotional Learning (CASEL): self-awareness, self-management, social awareness, relationship skills, and responsible decision-making, and explains how teaching students to develop their abilities in these areas can help them improve their learning and assessment experiences. Sackstein also raises important considerations for educators, urging them to examine their implicit biases to improve their relationships with students, deepen their understanding of the impact of grades and assessments on students' self-image and their ability to reach their full potential as learners, develop personalized assessment systems that ensure an accurate, fair and equitable portrayal of what students know and can do. In addition to presenting the relevant research, Sackstein draws from personal experience and the reflections of students, teachers and administrators to present a compelling case for approaching assessment through the SEL lens. Educators at all levels who have witnessed the devastating effects that testing can have on students' beliefs in themselves as learners will find *Assessing with Respect* to be an invaluable guide to ensuring better outcomes and better emotional health for all students.
