Web Based Energy Information and Control Systems Barney L. Capehart, Lynne C. Capehart, 2021-01-07

Advances in new equipment, new processes and new technology are the driving forces in improvements in energy management, energy efficiency and energy cost control. The purpose of this book is to document the operational experience with web based systems in actual facilities and in varied applications and to show how new opportunities have developed for energy and facility managers to quickly and effectively control and manage their operations. You'll find information on what is actually happening at other facilities and see what is involved for current and future installations of internet based technologies. The case studies and applications described should greatly assist energy facility and maintenance managers as well as consultants and control systems development engineers.
