education **Empowering Higher Education in Indonesia** A. Chaedar Alwasilah, Judith Puncochar, 2018-04-01 This book is a concrete solution to the challenges in developing higher education in Indonesia. The proposed perspectives and ideas are ideal to be developed by teachers and lecturers in their own classroom. The two best parts of this book are 1 how the educators especially in universities should form critical thinking habit in their classroom through respectful and scholarly discussion and 2 how universities should become the centre of teaching for learning. Those are vital as educating today's students is our best investment to develop their willingness of life long learning and the ability of critical thinking. In the future these students will determine the fate of Indonesia. Therefore let's empower higher education in Indonesia by applying the constructive suggestions proposed in this book.

Research Literacy for Health and Community Practice, Second Edition Sonya Jakubec, Barbara Astle, 2021-12-10 In its second edition *Research Literacy for Health and Community Practice* introduces students to fundamental research concepts that will enable them to think critically about research and recognize effective methods for understanding and utilizing research for practice. Thoroughly updated this new edition features content on Indigenous knowledge and research including contributions by two Indigenous scholars and offers additional examples of qualitative and quantitative designs updated content on literature reviews as well as new exercises and examples throughout to broaden the scope to different care providers in health community services and other related fields. Rather than outlining methods for conducting research this textbook teaches basic skills for engaging with research literature including how to frame and organize knowledge interpret and evaluate evidence using qualitative and quantitative approaches distinguish between research and other forms of information and use this evidence in practice settings. Offering a wealth of exercises recommended readings online resources and learning activities this textbook satisfies the need for practical beginner level resources in research literacy courses across health studies disciplines.

FEATURES Written in an accessible and user friendly style that offers a straightforward understanding of essential research concepts. Pedagogical features include chapter outlines and learning objectives review and reflect sections further resources and links a glossary and two appendices with practice exam questions and learning activities.
