On July 22, 1997 the Walt Disney Company released the details of its revenues, operating income, and net income for the third quarter ended June 30, 1997. The Dow Jones News Service then reported the information in newspapers throughout the country.

Disney had a good quarter. Revenues for that period were \$5.19 billion, up from the \$5.09 billion reported last year for the same period. Net income was also up from \$401 million in 1996 to \$473 million in 1997.

Disney's revenues come from three divisions:

- 1) Creative Content — where movies are made.
- 2) Broadcasting — which includes ESPN and the Disney Channel.
