21st-Century Statecraft Nayef Al-Rodhan, 2022-07-28. From civilisational frontier risks associated with new challenges like disruptive technologies to the shifting nature of great power conflicts and subversion, the 21st century requires a new approach to statecraft. In *21st Century Statecraft*, Professor Nayef Al Rodhan proposes five innovative statecraft concepts. He makes the case for a new method of geopolitical analysis called meta geopolitics and for dignity based governance. He shows how in an interdependent and interconnected world, traditional thinking must move beyond zero sum games and focus on multi sum and symbiotic realist interstate relations. This requires a new paradigm of global security premised on five dimensions of security and a new concept of power, just power, which highlights the centrality of justice to state interests. These concepts enable states to balance competing interests and work towards what the author calls reconciliation statecraft. Throughout, Professor Al Rodhan brings his philosophical and neuroscientific expertise to bear, providing a practical model for conducting statecraft in a sustainable way. *The American Year Book*, 1913.
