Source: Amaretto Independent School District, unprocessed data.

As shown in the exhibit above, students earned higher grades and pass rates in the social sciences field. With the exception of second-semester U.S. History, every student taking a social sciences course passed.

A closer second to student performance in the social sciences is performance in the sciences. Overall, the pass rates were nearly perfect, with the exception of second-semester ECI and second-semester Chemistry.

CONCLUSION

Disappointed with the performance of previous e-learning software, administrators at Amaretto Independent School District updated their curriculum, choosing to implement ODYSSEYWARE's technology-based learning environment for use in their summer school program. These administrators saw dramatic results.

Despite enrollment in some of the most rigorous math, sciences, and social studies courses now offered by AISD, an impressive 80 percent of summer school students passed their courses in fact, science and social studies students experienced unprecedented success, collectively achieving pass rates at or near 100 percent.

So how were these Texas students able to achieve such success? The single answer is ODYSSEYWARE. The features of this innovative online curriculum are designed to be delivered to a diversity of students at a pace that suits their individual learning styles. In addition, thousands of multimedia elements engage students and allow them to receive information through multiple interactive channels to accommodate visual, auditory, linguistic, and kinesthetic learners. Perfect for summer school and other alternative learning programs, ODYSSEYWARE allows students to log on and learn anytime and from any computer with an Internet connection.

Perhaps the success of Amaretto's summer school students explains why ODYSSEYWARE enrollment has grown 16-fold, from 81 students in 2008 to a year-end tally hundreds of thousands of students and teachers nationwide use ODYSSEYWARE!

“ODYSSEYWARE allows students who need flexibility to facilitate their own learning at school as well as from home. One big advantage to ODYSSEYWARE is that it allows teachers to customize individual students' instruction. It is vital for many students, who are in an alternative education setting, that teachers are able to develop students' lessons based on individual strengths and weaknesses. ODYSSEYWARE is a powerful tool for North Heights and is an essential part of our students' success.”
