## **Translation and Rewriting in the Age of Post-Translation Studies**

Edwin Gentzler, 2016-11-03 In *Translation and Rewriting in the Age of Post Translation Studies*, Edwin Gentzler argues that rewritings of literary works have taken translation to a new level: literary texts no longer simply originate but rather circulate, moving internationally and intersemiotically into new media and forms. Drawing on traditional translations, post-translation rewritings, and other forms of creative adaptation, he examines the different translational cultures from which literary works emerge and the translational elements within them. In this revealing study, four concise chapters give detailed analyses of the following classic works and their rewritings: *A Midsummer Night's Dream* in Germany, Postcolonial *Faust*, Proust for Everyday Readers, *Hamlet* in China. With examples from a variety of genres including music, film, ballet, comics, and video games, this book will be of special interest for all students and scholars of translation studies and contemporary literature.

**Transfiction: Characters in Search of Translation Studies** Marko Miletich, 2023 This book explores the uses of translation, translators, and interpreters in fiction as a gateway to introduce issues related to Translation Studies. The volume follows recent scholarship on Transfiction, a term used to describe the portrayal of translation both as a topic and as a motif, as well as translators and interpreters in fiction and film. It expands on the research by Kalus Kaindl, Karlheinz Splitzl, Michael Cronin, and Rosemary Arrojo, among others. Although the volume reflects the preoccupation with translator visibility, it concentrates on the importance of power struggles within the translatorial task. The volume could be an invaluable tool to be

used for pedagogical purposes to discuss theoretical aspects within Translation and Interpreting Studies      **Proust, the One, and the Many** Erika Fulop, 2017-12-02 One of the many aspects that make Marcel Proust's *A la recherche du temps perdu* such a complex and subtle work is its engagement with metaphysical questions. The disparate nature of the narrators' experiences, hypotheses, and statements has generated a number of conflicting interpretations based on parallels with the thought of one or another philosopher from Plato to Leibniz, Spinoza, Schopenhauer, Nietzsche, Bergson, or Deleuze. Through the analysis of the narrators' two seemingly incompatible perceptions of the world, which reveal reality to be either one or infinitely multiple, Erika Fulop proposes a reading of the novel that reconciles the opposites. Rather than being undecided or self-contradictory, the narrative thematizes the insufficiency of the dualist perspective and invites the reader to take a step beyond it. Erika Fulop is an independent researcher whose doctoral thesis, completed at the University of Aberdeen, is at the basis of this monograph.

Gilles Deleuze's ABCs Charles J. Stivale, 2008-02-04 Friendship in its nature, purpose, and effects has been an important concern of philosophy since antiquity. It was of particular significance in the life of Gilles Deleuze, one of the most original and influential philosophers of the late twentieth century. Taking *L'Abécdaire de Gilles Deleuze*, an eight-hour video interview that was intended to be aired only after Deleuze's death, as a key source, Charles J. Stivale examines the role of friendship as it appears in Deleuze's work and life. Stivale develops a zigzag methodology practiced by Deleuze himself to explore several concepts as they relate to friendship and to discern how friendship shifts, slips, and creates movement between Deleuze and specific friends. The first section of this study discusses the elements of creativity, pedagogy, and literature that appear implicitly and explicitly in his work. The second section focuses on Deleuze's friendships with Michel Foucault, Jacques Derrida, Claire Parnet, and Félix Guattari and reveals his conception of friendship as an ultimately impersonal form of intensity that goes beyond personal relationships. Stivale's analysis offers an intimate view into the thought of one of the greatest thinkers of our time.

**Politics of the Gift** Gerald Moore, 2011-04-24 Gerald Moore shows how the problematic of the gift drives and illuminates the last century of French philosophy. By tracing the creation of the gift as a concept from its origins in philosophy and the social sciences right up to the present, Moore shows.

VV:,2022-09-23T00:00:00+02:00 In the year 2020 what we used to think that our habits have been profoundly disrupted Lockdown still represents an unprecedented experience for all of those who went through it since it radically affected our freedom of movement and social interaction that used to make up our everyday lives Some people believe that once the pandemic ends nothing will be the same Others think that once the virus becomes weaker or a vaccine is at our disposal and the fear is diminished everything will go back to normal because the mechanism of habit is in many ways similar to the mechanisms of nature reiterating the uniformity of its functioning Who is right then Both positions perhaps When philosophers addressed the issue of customs namely collective habits generally emphasized the caution required when it comes to changing them and if we look back on history Could pandemics affect shared habits in specific territories as ultimately generated in reaction to other natural risks and or to their threats      **Zola, The Body Modern Susan**

Harrow,2017-07-05 Emile Zola s reputation as a landmark European novelist is undisputed His monumental achievement the novel cycle Les Rougon Macquart Histoire sociale et naturelle d une famille sous le Second Empire 1871 1893 fixed his status as a major writer in the naturalist tradition Is there any more to be said Susan Harrow answers boldly in the affirmative challenging the commonplace view that Zola s writing is predictable prolix and transparent what Barthes called readerly for which read tedious Harrow exposes the modernist and postmodernist strategies which surface in the Rougon Macquart novels and reveals Zola s innovatory representation of the body captured here at work at war at play at rest and in arresting abstraction Informed by critical thought from Barthes and Deleuze to Michel de Certeau and Anthony Giddens Zola the Body Modern offers a model for how we can revitalize our understanding of the canonical nineteenth century European novel and learn to travel more flexibly between parameters of century style and aesthetics      The Pathos of Distance

Jean-Michel Rabaté,2016-04-21 Jean Michel Rabat uses Nietzsche s image of a pathos of distance the notion that values are created by a few gifted and lofty individuals as the basis for a wide ranging investigation into the ethics of the moderns Revealing overlooked connections between Nietzsche s and Benjamin s ideas of history and ethics Rabat provides an original genealogy for modernist thought moving through figures and moments as varied as Yeats and the birth of Irish Modernism the ethics of courage in Virginia Woolf Rilke Apollinaire and others in 1910 T S Eliot s post war despair Jean Cocteau s formidable selfmythology in his first film The Blood of a Poet Siri Hustvedt s novel of American trauma and J M Coetzee s dystopia portraying an affectless future haunted by a messianic promise      *The Philosophical Baroque* Erik S.

Roraback,2017-04-18 In his pioneering study *The Philosophical Baroque On Autopoietic Modernities* Erik S Roraback argues that modern culture contemplated over its four century history resembles nothing so much as the pearl famously described by periodizers of old as irregular barroco Reframing modernity as a multi century baroque Roraback steepes texts by Shakespeare Henry James Joyce and Pynchon in systems theory and the ideas of philosophers of language and culture from Leibniz to such dynamic contemporaries as Luhmann Benjamin Blanchot Deleuze and Guattari Lacan and i ek The resulting brew high in intellectual caffeine will be of value to all who take an interest in cultural modernity indeed all who recognize that modernity was and remains a congeries of competing aesthetic economic historical ideological philosophical and political energies

Magical Criticism Christopher Bracken,2008-09-15 During the Enlightenment Western scholars racialized ideas deeming knowledge based on reality superior to that based on ideality Scholars labeled inquiries into ideality such as animism and soul migration savage philosophy a clear indicator of the racism motivating the distinction between the real and the ideal In their view the savage philosopher mistakes connections between signs for connections between real objects and believes that discourse can have physical effects in other words they believe in magic Christopher Bracken s *Magical Criticism* brings the unacknowledged history of this racialization to light and shows how even as we have rejected ethnocentric notions of the savage they remain active today in everything from attacks on postmodernism to Native American land disputes Here Bracken reveals that many of the most influential Western thinkers dabbled in savage philosophy from Marx Nietzsche and Proust to Freud C S Peirce and Walter Benjamin For Bracken this recourse to savage philosophy presents an opportunity to reclaim a magical criticism that can explain the very real effects created by the discourse of historians anthropologists philosophers the media and governments

Spaces of Feeling Marta Figlerowicz,2017-12-15 Can other people notice our affects more easily than we do In *Spaces of Feeling* Marta Figlerowicz examines modernist novels and poems that treat this possibility as electrifying but also deeply disturbing Their characters and lyric speakers are undone Figlerowicz posits by the realization that they depend on others to solve their inward affective conundrums and that to these other people their feelings often do not seem mysterious at all *Spaces of Feeling* features close readings of works by Virginia Woolf James Baldwin John Ashbery Ralph Ellison Marcel Proust F Scott Fitzgerald Sylvia Plath and Wallace Stevens Figlerowicz points out that these poets and novelists often place their protagonists in domestic spaces such as bedrooms living rooms and basements in which their cognitive dependence on other characters inhabiting these spaces becomes clear Figlerowicz highlights the diversity of aesthetic and sociopolitical contexts in which these affective dependencies become central to these authors representations of selfhood By setting these novels and poems in conversation with the work of contemporary theorists she illuminates pressing and unanswered questions about subjectivity

**Godard and Sound** Albertine Fox,2017-12-18 What happens when we listen to a film How can we describe the relationship of sound to vision in cinema and in turn our relationship as spectators with the audio visual Jean Luc Godard understood the importance of the

soundtrack in cinema and relied heavily on the impact of carefully constructed sound to produce innovative effects For the first time this book brings together his post 1979 multimedia works and an analysis of their rich soundscapes The book provides detailed critical discussions of feature length films shorts and videos delving into Godard s inventive experiments with the cinematic soundtrack and offering new insights into his latest 3D films By detailing the production contexts and philosophy behind Godard s idiosyncratic sound design it provides an accessible route to understanding his complex use of music speech and environmental sound alongside the distorting effects of speed alteration and auditory excess The book is framed by the concept of acoustic spectatorship a way of cultivating active listening in the viewer It also draws on ideas by leading sound theorists philosophers musicians and poets giving particular emphasis to the pioneering thought of French sound engineer and theorist Pierre Schaeffer Softening the boundaries between film studies sound studies and musicology Godard and Sound re evaluates Godard s work from a sonic perspective and will prove essential reading for those wishing to rebalance the importance of sound for the study of cinema

**Political Monsters and Democratic Imagination** Patrick McGee, 2016-09-08 Political Monsters and Democratic Imagination explores the democratic thought of Spinoza and its relation to the thought of William Blake Victor Hugo and James Joyce As a group these visionaries articulate a concept of power founded not on strength or might but on social cooperation a principle of equality based not on the identity of individuals with one another but on the difference between any individual and the intellectual power of society as a whole an understanding of thought as a process that operates between rather than within individuals and a theory of infinite truth something individuals only partially glimpse from their particular cultural situations For Blake God is the constellation of individual human beings whose collective imagination produces revolutionary change In Hugo s novel Jean Valjean learns that the greatest truth about humanity lies in the sewer or among the lowest forms of social existence For Joyce Leopold and Molly Bloom are everybody and nobody singular beings whose creative power and truth is beyond categories and social hierarchies
