The Letter from Prison W. Clark Gilpin, 2024-06-24 Letters from prison testifying to deeply felt ethical principles have a long history extending from antiquity to the present day In the early modern era the rise of printing houses helped turn these letters into a powerful form of political and religious resistance W Clark Gilpin s fascinating book examines how letter writers in England ranging from archbishops to Quaker women consolidated the prison letter as a literary form Drawing from a large collection of printed prison letters written from the reign of Henry VIII to the closing decades of the seventeenth century Gilpin explores the genre s many facets within evolving contexts of reformation and revolution The writers of these letters portrayed the prisoner of conscience as a distinct persona and the prison as a place of redemptive suffering where bearing witness had the power to change society The Letter from Prison features a diverse cast of characters and a literary genre that combines drama and inspiration It is sure to appeal to those interested in early modern England prison literature and cultural forms of resistance

Prison Town Andrea R. Morrell, 2025-06 Elmira a town of about twenty six thousand people in central New York is in some ways a typical town with quiet tree lined residential streets an art museum local coffee shops and a small college The city however is best known as home to Elmira Correctional Facility and until its closure in March 2022 the Southport Correctional Facility Hundreds of locals have worked at the prisons the town plays host to visitors of the incarcerated and local medical institutions provide treatment to prisoners The prisons and Elmira are inseparable In *Prison Town* Andrea R Morrell illustrates the converging and shifting fault lines of race and class through a portrait of a prison town undergoing deindustrialization as it chooses the path of prison expansion In this ethnography Morrell highlights the contradictions of prison work as work that allows a middle class salary and lifestyle but trades in other forms of stigma Guards prisoners prisoners families and meager amounts of money and care work travel through spaces of free and unfree via the porous borders between prison and town As Morrell captures the rapid expansion of the carceral state into upstate New York from the perspective of a small city with two prisons she demonstrates how the prison system s racialized gendered and classed dispossession has crossed its own porous borders into the city of Elmira

My Diaries; Being a Personal Narrative of Events, 1888-1914 Wilfrid Scawen Blunt, 1923 *Legislative Documents of the Senate and Assembly of the State of New York* New York (State). Legislature, 1922 *Constructive Work with Offenders* Kevin Gorman, 2006 *Constructive Work with Offenders* offers a challenge to many of the assumptions of criminal justice policy and the dominant approaches to practice The contributors advocate an emphasis on constructive work with offenders that harnesses their positive strengths and resources and offers inclusive approaches to effective offender assessment and intervention Taking a fresh look at much received knowledge they proclaim that constructive work with

offenders is both possible and increasingly warranted and encourage practitioners to develop new skills and adapt existing expertise to the rapidly changing requirements of the criminal justice system This book will be of interest to practitioners trainers managers and researchers in the criminal justice system as well as academics and students in the field of criminology and related disciplines *Dementia in Prison* Joanne Brooke,2020-12-06 This innovative volume exposes dementia as a condition that the aging prison population is increasingly facing Going beyond exploring the need to understand dementia within prison populations it argues that healthcare workers and prison staff must ensure that prisoners developing dementia during their sentence are identified and supported *Dementia in Prison* covers three key areas Healthcare services in prison settings and how these affect the rapidly aging prison population The human rights of prisoners with dementia alongside the ethics of healthcare in this environment The current state of support for prisoners with dementia and any recommendations for future assessment diagnosis and policies This provocative book will be invaluable to scholars in the fields of public health criminology and medical sociology as well as nurses and prison staff **Documents of the Senate of the State of New York** New York (State). Legislature. Senate,1870 *Legislative Document* New York (State). Legislature,1924 *Hypocrisy* Vincent Shing Cheng,2019-10-25 Although the official propaganda surrounding the drug detainees in China is that of helping educating and saving them from their drug habits and the drug dealers who lure them into drug abuse it is clear according to Vincent Shing Cheng that those who have gone through the rehabilitation system lost their trust in the Communist Party s promise of help and consider it a failure Based on first hand information and established ideas in prison research *Hypocrisy* gives an ethnographic account of reality and experiences of drug detainees in China and provides a glimpse into a population that is very hard to reach and study Cheng argues that there is a discrepancy between the propaganda of helping and saving drug users in detention or rehabilitation centres and the reality of humiliating them and making them prime targets of control Such a discrepancy is possibly threatening rather than enhancing the party state s legitimacy He concludes the book by demonstrating how the gulf between rhetoric and reality can illuminate many other systems even in much less extreme societies than China This book is highly original meticulously researched and insightful The study comes to very informative conclusions that contrast empirical data with the way drug rehabilitation is displayed in the media and government propaganda It is a must read for scholars in prison studies but should also be recommended to criminologists political scientists and lawyers Saskia Hufnagel Queen Mary University of London The book is an excellent account of the state s handling of drug abuse in China and convincingly argues that the institutions official purpose of helping the offenders is poorly served and largely hypocritical A compelling study based on solid and in depth empirical research James D Seymour Columbia University **Proceedings of the Annual Congress of the American Prison Association** American Prison Association. Congress,1921 *Prison Education: Report, together with formal minutes* Great Britain. Parliament. House of Commons. Education and Skills Committee,2005 In light of the transfer of responsibility

for prison education to the Department for Education and Skills DfES the Committee's report examines the provision of education and training in prisons including the overall strategy for prison education delivery structures at national regional and local levels programme contents in comparison to external standards and barriers to delivery across the wider prison regime Findings include that current provision is unacceptable in terms of quantity and quality of provision and a fundamental shift in approach is required Although there has been an increase in resources available in 2004 on average only a third of prisoners had access to prison education at any one time The Committee highlights the need for an overarching strategy and higher priority to be given to prison education based on recognition of its role in helping to reduce recidivism through rehabilitation and suited to meet the needs of individual prisoners to ensure they have a real alternative to crime on release
