

An artistic illustration of two European Waxwings (Buteo) perched on a gnarled, light-brown branch. The bird in the upper left is shown in profile, facing left, with its head turned slightly towards the viewer. It has a reddish-brown crest, a black throat and face, and a body with warm brown and tan tones. Its wings show black and white patterns with a hint of yellow. The bird in the lower right is also in profile, facing right, with its head turned slightly towards the viewer. It has similar plumage but with more pronounced grey on its wings and tail. Both birds have long, thin, slightly upturned tails. Several clusters of small, bright red berries are attached to the branch, some near the birds and others further up. The background is plain white.
