Surdick,2012 The purpose of this study was to develop the framework and systems to advance the current HACCP food safety program to reflect the standard of ISO 22000 The goals of the study were to conduct an analysis of identified food safety systems to understand the best food safety practices conduct a GAP analysis of the food safety system at XYZ and finally to conduct a need assessment focusing on organizational analysis task analysis and individual analysis The methods used in the study include a review of literature of established food safety systems to determine necessary improvements and utilize an ISO 22000 audit checklist to determine the gap between the current food safety system at company XYZ and the ISO standard The last method used in the study was a semi structured interview guide to conduct an interview with different levels of management at company XYZ Information collected from the audit checklist and semi structured interview suggest that the current system established at company XYZ would benefit from the implementation of ISO 22000 principles The current system at Company XYZ fails to properly train employees and managers on HACCP principles and pre requisite programs indicated by the results in the audit checklist and semi structured interview Implementing a training program that teaches employees and managers the basics of the program and the reason

for the program in addition to improving management involvement will positively affect Company XYZ s food safety system
