 - Frequently use all TV features designed to reduce image retention and screen burnout, refer to proper user manual section for details.

The most common causes of image retention are logos that remain stationary on the TV screen. These logos are common on many programmes received via a Sat-Top Box. To reduce this risk, avoid displaying still images for long durations and lower the brightness or contrast settings to decrease the intensity of the pictures. Extended viewing of movies and programs in aspect ratios that are different from the aspect ratio of the TV may cause image retention. Always endeavour to avoid black borders top or bottom by using the zoom function. This will help eliminate the black borders and fit the pictures to the entire area of
