Testing Teacher Candidates National Research Council, Division of Behavioral and

Social Sciences and Education, Board on Testing and Assessment, Center for Education, Committee on Assessment and Teacher Quality, 2001-10-19 Americans have adopted a reform agenda for their schools that calls for excellence in teaching and learning. School officials across the nation are hard at work targeting instruction at high levels for all students. Gaps remain however between the nation's educational aspirations and student achievement. To address these gaps, policy makers have recently focused on the qualifications of teachers and the preparation of teacher candidates. This book examines the appropriateness and technical quality of teacher licensure tests currently in use, evaluates the merits of using licensure test results to hold states and institutions of higher education accountable for the quality of teacher preparation and licensure, and suggests alternatives for developing and assessing beginning teacher competence. Teaching is a complex activity. Definitions of quality teaching have changed and will continue to change over time as society's values change. This book provides policy makers, teacher testers, and teacher educators with advice on how to use current tests to assess teacher candidates and evaluate teacher preparation, ensuring that America's youth are being taught by the most qualified candidates.

Journeys in Social Education: A Primer C. White, 2011-07-23 Social education is quite a journey. Given the ongoing debate and struggle with defining social education, the following is at present a working definition. While we resist defining social education, we believe that social education emphasizes three areas of study: critical pedagogy, cultural media studies, and social studies education. We also stress that education interpreted broadly has the potential to advance social justice. Thus emerged social education: a lifelong journey for all of us to question, to challenge, to do, and to create. Connecting present and past, merging current issues with traditional curriculum, integrating alternative texts and perspectives, empowering and emancipating kids and educators, and transforming schools and society: the transgressions of social education scream out. Dewey, Freire, Kincheloe, Zinn, Greene, Giroux, Apple, hooks, McLaren, Kozol, Loewen, Said, Chomsky, even Bob Dylan and many others have provided the impetus. May we make them proud. The essays within this text demonstrate various journeys in social education. They are meant as stories, not maps or scripts. They are intended to serve as a primer of sorts for those interested in a similar journey. Hopefully, this can be a meaningful experience for many students, educators, parents, and society as a whole, of course. Well, the journey and struggle continues.
