Privilege and Anxiety Hagen Koo,2022-07-15 In Privilege and Anxiety Hagen Koo examines what has happened to the Korean middle class in the era of neoliberal globalization and demonstrates that global economic change brought more profound changes than mere economic decline and shrinking size to this class Globalization has inserted an axis of polarization into the middle class separating a small minority that benefits from the globalized economy from the large majority that suffers from it This internal differentiation generates a challenging dynamic within Korean society as the newly affluent seek to distinguish themselves from the rest of the middle class to establish a new privileged class position Privilege and Anxiety explores how these tensions play out in three areas consumption and lifestyle residential differentiation and education In all three areas the dominant orientation of the affluent middle class is to preserve their newfound privilege and to pass it onto their children Their new class practices Koo argues bring great anxiety to both the winners and losers of neoliberal globalization

Does the World Exist? Anna-Teresa Tymieniecka,2012-12-06 Does the World exist There would be no reason to resurrect this question of modernity from its historical oblivion were it not for the fact that recent evolution in science and technology impregnating culture makes us wonder about the nature of reality of the world we are living in and of our status as living beings within it Thus great metaphysical subjacent queries are forcefully revived calling for new investigations to proceed in the light of the innumerable novel insights of science This collection presents a wealth of material toward an elaboration of a new metaphysical groundwork of the ontopoiesis phenomenology of life sought to effect such investigations The classic postulates of the metaphysics of reality those of necessity and certainty here find a new formulation Away from sclerotized ontological and cognitive assumptions and congenial with the views of contemporary science the understanding of reality of our world of life and of ourselves within it is to be sought in the existential ontopoietic ciphering of life Tymieniecka

Conspiracy in Modern Egyptian Literature Benjamin Koerber, 2017-12-04 Contextualises current Salafi iconoclasm and graves destruction tracing its ideological sources *Conrad's Drama*, 2019-08-26 Conrad's Drama Contemporary Reviews and Observations collects both book reviews and performance reviews of Conrad's three plays The Secret Agent One Day More and Laughing Anne These reviews and observations show how Conrad's plays were received by his contemporaries More than this however Conrad's Drama reveals the larger conversations surrounding his plays the state of British drama in the early 20th century the role the drama critic has in a play's reception and the difficulty most fiction writers experience in trying to write for the stage No other reference work exists for those studying Conrad's plays and this volume should prove to be an indispensable reference work for those working on this topic Conrad's Drama received an Honorable Mention in the Joseph Conrad Society of America's Adam Gillon Book Prize in Conrad Studies for books published 2018-2020 *Critical Perspectives on Jean Rhys* Pierrette M. Frickey, 1990 Rhys acclaimed author of Wide Sargasso Sea Quartet and other novels treating the alienation of a woman from the Caribbean living in European settings has been a focus of interest both as a feminist writer and in the context of Caribbean literature Staging England in the Elizabethan History Play Ralf Hertel, 2016-04-01 Applying current political theory on nationhood as well as methods established by recent performance studies this study sheds new light on the role the public theatre played in the rise of English national identity around 1600 It situates selected history plays by Shakespeare and Marlowe in the context of non-fictional texts such as historiographies chorographies political treatises or dictionary entries and cultural artefacts such as maps or portraits and thus highlights the circulation and mutation of national thought in late sixteenth century culture At the same time it goes beyond a New Historicist approach by foregrounding the performative surplus of the theatre event that is so essential for the shaping of collective identity How this study crucially asks does the performative art of theatre contribute to the dynamics of the formation of national identity Although theories about the nature of nationalism vary a majority of theorists agree that notions of a shared territory and history as well as questions of religion class and gender play crucial roles in the shaping of national identity These factors inform the structure of this book and each is examined individually In contrast to existing publications this inquiry does not take for granted a pre-existing national identity that simply manifested itself in the literary works of the period nor does it proceed from preconceived notions of the playwrights' political views Instead it understands the early modern stage as an essentially contested space in which conflicting political positions are played off against each other and it inquires into how the imaginative work of negotiating these stances eventually contributed to a rising national self-awareness in the spectators *The Novel: An Alternative History, 1600-1800* Steven Moore, 2013-08-29 Winner of the

Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms
