Gilmour,1956 Racial Discrimination and Minority Business Enterprise Jon S. Wainwright,2014-01-14 Using a large microdata sample from the most recent decennial census this book documents the economic disparities facing minority owned business owners relative to non minorities The book incorporates a wide range of geographic and industrial categories and demonstrates that these disparities persist even when other important factors such as education experience wealth and family structure are held constant Self employed business owners comprise an important and growing sector of the U S economy In contrast to wage workers the issue of discrimination against minority business owners has received little attention from economists However recent U S Supreme Court decisions have made the continued constitutionality of affirmative action in public sector purchasing and contracting contingent upon documenting the existence of discrimination against such businesses within relevant geographic or industrial boundaries The author shows that among prime working age males being an entrepreneur is a relatively more lucrative form of employment on average than working for a wage Typically however non Hispanic whites become entrepreneurs at much higher rates and receive much higher earnings than their black Hispanic and Native American counterparts The author s findings of racial and ethnic disparities are strongest for black and Native American entrepreneurs Positive levels of discrimination facing Hispanic and Asian entrepreneurs are also documented The book also includes discussion of relevant Supreme Court decisions how economists attempt to measure discrimination and the major sources of data available for studying minority business enterprise *Developing a Compensation Plan for Your Library* Paula M.
