Foremost, I would like to express my sincere gratitude to my advisor Prof. Ying Wu for the continuous support of my Ph.D study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D study.

Besides my advisor, I would like to thank the rest of my thesis committee: Prof. Aggelos K.Katsaggelos, Prof. Thrasyvoulos N.Pappas, and Dr. James Crenshaw, for their encouragement, insightful comments, and hard questions.

My sincere thanks also goes to Dr. James Crenshaw, Dr. Senthil Periaswamy, and Dr. Qiong Liu, for offering me the summer internship opportunities in their groups and leading me working on diverse exciting projects.

I thank my fellow labmates in Northwestern Vision Group: Gang Hua, Ting Yu, Zhimin Fan, Shengyang Dai, Junsong Yuan, Jiang Xu, Jialue Fan, and Neelabh Gupta, for the stimulating discussions, for the sleepless nights we were working together before deadlines, and for all the fun we have had in the last four years. Also I thank my friends in Tsinghua University: Chen Fan, Wensheng Wang, Bo Qin, Xiwei Wang, Yonggang Zhao, Hua Chen, Junlin Li, and Rui Zhou. In particular, I am grateful to Dr. Chen Fan for enlightening me the first glance of research.

Last but not the least, I would like to thank my family: my parents Siyu Yang and Xiaolan Ding, for giving birth to me at the first place and supporting me spiritually throughout my life.

Appraising Research in Second Language Learning Graeme Keith Porte,2010 Designed for students of applied linguistics and second language acquisition on research training courses practising language teachers and those in training this combination textbook workbook is a set or recommended textbook on more than a hundred undergraduate and postgraduate courses worldwide Now in its second edition it remains the only book to provide specific advice and support to those wishing to learn a methodical approach to the critical analysis of a research paper It seeks to answer a current need in the literature for a set of procedures that can be applied to the independent reading of quantitative research Innovative features of the workbook include awareness raising reading tasks and guided exercises to help develop and practise the critical skills required to appraise papers independently Through informed and constructive appraisal of others work readers themselves are shown how to become more research literate to discover new areas for investigation and to organise and present their own work more effectively for publication and peer evaluation This revised second edition sees a closer integration of the text and workbook and a number of additions to the text itself as well as further guided and unguided research appraisal exercises

A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition Kate L. Turabian,2009-08-14 Dewey Bellow Strauss Friedman The University of Chicago has been the home of some of the most important thinkers of the modern age But perhaps no name has been spoken with more respect than Turabian The dissertation secretary at Chicago for decades Kate Turabian literally wrote the book on the successful completion and submission of the student paper Her Manual for Writers of Research Papers Theses and Dissertations created from her years of experience with research projects across all fields has sold more than seven million copies since it was first published in 1937 Now with this seventh edition Turabian s Manual has undergone its most extensive revision ensuring that it will remain the most valuable handbook for writers at every level from first year undergraduates to dissertation writers apprehensively submitting final manuscripts to senior scholars who may be old hands at research and writing but less familiar with new media citation styles Gregory G Colomb Joseph M Williams and the late Wayne C Booth the gifted team behind *The Craft of Research* and the University of Chicago Press Editorial Staff combined their wide ranging expertise to remake this classic resource They preserve Turabian s clear and practical advice while fully embracing the new modes of research writing and source citation brought about by the age of the Internet Booth Colomb and Williams significantly expand the scope of previous editions by creating a guide generous in length and tone to the art of research and

writing Growing out of the authors best selling Craft of Research this new section provides students with an overview of every step of the research and writing process from formulating the right questions to reading critically to building arguments and revising drafts This leads naturally to the second part of the Manual for Writers which offers an authoritative overview of citation practices in scholarly writing as well as detailed information on the two main citation styles notes bibliography and author date This section has been fully revised to reflect the recommendations of the fifteenth edition of The Chicago Manual of Style and to present an expanded array of source types and updated examples including guidance on citing electronic sources The final section of the book treats issues of style the details that go into making a strong paper Here writers will find advice on a wide range of topics including punctuation table formatting and use of quotations The appendix draws together everything writers need to know about formatting research papers theses and dissertations and preparing them for submission This material has been thoroughly vetted by dissertation officials at colleges and universities across the country This seventh edition of Turabian s Manual for Writers of Research Papers Theses and Dissertations is a classic reference revised for a new age It is tailored to a new generation of writers using tools its original author could not have imagined while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian

Engineering Research Methodology Dipankar Deb,Rajeeb Dey,Valentina E. Balas,2018-12-14 The book covers all the important aspects of research methodology and addresses the specific requirements of engineering students such as methods and tools in detail It also discusses effective research in engineering today which requires the ability to undertake literature reviews utilizing different online databases to attribute credit for any prior work mentioned to respect intellectual property rights while simultaneously maintaining ethics in research and much more Further the book also considers soft skills like research management and planning dealing with criticism in research and presentation skills which are all equally important and need to include in research methodology education Lastly it provides the technical knowhow needed to file patents in academia an important area that is often ignored in research methodology books The book is a particularly valuable resource for PhD students in India and South East Asia as research methodology is a part of their coursework *Papers Presented at the FAO/UNEP/WHO/IOC/IAEA Meeting on the Biogeochemical Cycle of Mercury in the Mediterranean, Siena, Italy, 27-31 August 1984* ,1986-01-01

How to Write a Research Paper: A Guide Book for Neophyte Students Dr. Rashmee Yadav,2023-02-14 ABOUT THE BOOK The book How to write a Research Paper Guide book for neophyte students composed by three youngsters Dr Rashmee Yadav Dr Brij Vikash Singh and Dr Mithesh Verma is a fantastic effort in this direction They have covered almost all the areas of research paper writing process and how to write a research paper etc The book is based on the research paper writing process The author s main focused on this book How to write a Research Paper Guide Book for the neophyte students This book is helpful to students writing research paper in proper way because plenty of research papers are written every year But in many of them research methodology aspect is

not given a considerable attention and because of which the research papers end up in just being endless words containing stories leading to less or no sense. It should be noted that the quality in research articles comes from the extensive planning and in depth research before starting writing them actually. This is true even for management research papers. Writing a research paper analyzes a perspective or argues a point. Regardless of the type of research paper the researcher is writing, the researcher should present his own thinking backed up by others' ideas and information. Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences we have developed a detailed approach to writing research papers and the approach is presented here. Instead of focusing on one research paper we have focused on the process of research writing through a series of shorter writing exercises. Students begin by having to carefully think about a topic of research and by developing a working idea. They then write a series of shorter essays that explore that topic. All along the way students are continuing to research and revise their working proposal so that by the end of the term their thinking about their original topic of research has evolved. This book is titled **How to write a Coursework? , Research Methods in Dentistry** Fahimeh Tabatabaei, Lobat Tayebi, 2022-04-09. This classroom tested textbook will assist dental students with their academic research activities and help them to be competitive in today's fast growing research environment. It is designed as a core text for dental school classes such as Research Methodology and Scientific and Technical Writing as well as Responsible Conduct of Research (RCR) training but will also be a valuable resource for students and researchers in related fields such as the medical sciences and biomedical engineering. The authors start the book by explaining key concepts and common approaches in dental research both in basic science and clinical dentistry. They then familiarize readers with evidence based research in dentistry and how to write a systematic review, explain the process of designing and presenting a proposal, discuss reporting results both in scientific and clinical research and cover ethics in research highlighting the significance of adherence to ethics both in animal as well as human studies. Research Paper PNW, 1978. *A Manual for Writers of Research Papers, Theses, and Dissertations, Eighth Edition* Kate L. Turabian, 2013-04-09. A little more than seventy five years ago Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite and formally submit research writing. Seven editions and more than nine million copies later the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition *A Manual for Writers of Research Papers, Theses and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three part structure beginning with an overview of the steps in the research and writing process including formulating questions, reading critically, building arguments and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles: notes bibliography and author date, an array of source types with contemporary examples and detailed guidance on citing online resources. The final section treats all

matters of editorial style with advice on punctuation capitalization spelling abbreviations table formatting and the use of quotations Style and citation recommendations have been revised throughout to reflect the sixteenth edition of The Chicago Manual of Style With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up to date listing of critical resources available A Manual for Writers remains the essential resource for students and their teachers
