Objective Iti Questions With Answers Electrical:

Electrical Answers Manoj Dole, ELECTRICAL ANSWERS is a simple e Book with all about the latest Important Machines Hand Tools Instruments used in Electrical Engineering ITI courses like Electrician Wireman It contains objective questions with underlined bold correct answers Images covering all topics including Electrical Machines Hand Tools Measuring Instrument Machine Tools Accessories and lots more We add new question answers with each new version Please email us in case of any errors omissions This is arguably the largest and best e Book for All engineering multiple choice questions and answers As a student you can use it for your exam prep This e Book is also useful for professors to refresh material

Electrician Power Distribution MCQ Manoj Dole, Electrician Power Distribution MCQ is a simple Book for ITI Engineering Course Electrician Power Distribution NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about Professional Skill Professional Knowledge and Employability Skills related to job role In addition to this a candidate is entrusted to make do project work and Extra Curricular Activities to build up confidence The practical skills are imparted in simple to complex manner simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task The broad components covered under Professional Skill subject are as below

FIRST YEAR The trainee learns about safety and environment use of fire extinguishers practices elementary first aid rescue a person and artificial resuscitation He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning jointing soldering and crimping etc Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuits are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads and working with analog and digital measuring instruments The trainee work with different electronic components circuits and analyze waveforms in CRO The trainee learns about testing and maintenance of batteries and solar cell Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules and its fault detection is done by trainee Different types of light fitting are to be done like fluorescent tube HP sodium vapour lamp LEDs and their fixtures He learns Practice reading of power and control schematic drawings of motors and starters Operation testing and maintenance of induction motors alternators and synchronous motors are practiced The trainee learns to perform auto tuning and operation of AC drives Learns to repair and installation of inverter stabilizer battery charger and UPS

SECOND YEAR The trainee practices on control cabinet wiring and testing of control elements Understands power generation transmission and distribution network He identifies various substation equipment viz isolators over current relays earth fault relay differential relay REF relay lightening arresters Surge counter wave trap Reactor Capacitor bank Circuit breakers ACB SF 6 and VCB etc Practices operation and maintenance of isolators circuit breakers and other equipments used in distribution substations Skill will be gained on transformer for

operation maintenance and functional tests viz open circuit short circuit IR PI induced voltage BDV of transformer oil etc He practices on LT HT cable jointing laying of cables tests and fault finding of underground cables The trainee learns to install test repair and replace Current and Potential transformers used in distribution substations The trainee practices for pipe plate and meshearthring and carries out maintenance of earth system Identifies various conductors ACSR AAC ABC and cable insulation Practices on joining of overhead line conductors erection of poles fitting of accessories and commissioning of distribution line He learns to monitor meter readings reading of MRI reports generating electricity bills using SBM and maintaining log sheets at substations Practices isolation and switching procedure lock out tag out system settings of relays examine faults in control room and repair substation equipment and panels The Trainee also learns and practices on fire fighting equipment used in substations

Electrician First Year MCQ Manoj Dole, Electrician First Year MCQ is a simple Book for ITI Engineering Course Electrician First Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning joint making Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuit are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads Skilling practice on different types combination of cells for operation and maintenance is being done Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules for hostel residential building workshop and its fault detection are done by trainee The trainee will practice for pipe plate earthing Different types of light fitting are to be done like HP LP mercury vapour and sodium vapour are prominent The trainee will practice on different types of measuring instruments like multimeter wattmeter energy meter phase sequences meter frequency meter for measurement of electrical parameters in single three phase circuits He will gain skill on range extension calibration and testing of meters Practice for dismantling assembling and testing of heating element equipment induction heating equipment grinding machines and washing machines will be done by trainee Skill will be gained on transformer for operation efficiency series parallel operation replacement of transformer oil and combination of single phase transformers for 3 phase operation The trainee will practice on winding of small transformer and lots more

Electrician Second Year MCQ Manoj Dole, Electrician Second Year MCQ is a simple Book for ITI Engineering Course Electrician Second Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical rotating machines viz DC machines induction motors alternators MG sets and practice on them The trainee will practice on determining characteristics their performance analysis starting speed control and reversing direction of rotation of machines He will practice on parallel operation synchronization of alternators winding practice and over hauling will be

practiced for DC machine and induction motors diodes for bridge rectifier switching devices amplifiers by electronic components different wave shape generation and testing by CRO Designing control cabinet assembling control elements and their wiring are to be practiced Speed control of AC DC motors by electronic controller will be practiced The trainee will practice on testing analyzing and repairing of voltage stabilizer emergency light battery charger UPS and inverter He will gain knowledge of thermal hydel solar wind energy systems distribution system domestic service line and accessories their protection by practicing on relay and circuit breaker and lots more

ITI Electrician Manoj Dole, ITI Electrician is a simple e Book for ITI Electrician JOB Interview Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers trade tools its standardization identifies different types of conductors cables their skinning joint making Kirchhoff s law ohm s law laws of resistances single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads ICDP switch distribution fuse box and mounting energy meters HP LP mercury vapour and sodium vapour light measuring instruments like multimeter

Electrician ITI Manoj Dole, 2018-12-12 Electrician ITI is a simple e Book for ITI Engineering Course Electrician First Second Year Sem 1 2 3 4 Revised Syllabus in 2018 It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers trade tools its standardization identifies different types of conductors cables their skinning joint making Kirchhoff s law ohm s law laws of resistances single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads ICDP switch distribution fuse box and mounting energy meters HP LP mercury vapour and sodium vapour light measuring instruments like multimeter wattmeter energy meter phase sequences meter frequency meter for measurement of electrical parameters in single three phase circuits heating element equipment induction heating equipment grinding machines and washing machines rotating machines DC machines induction motors alternators MG sets DC machine and induction motors diodes for bridge rectifier switching devices amplifiers by electronic components control cabinet assembling control elements and their wiring Speed control of AC DC motors by electronic controller voltage stabilizer emergency light battery charger UPS and inverter thermal hydel solar wind energy systems relay and circuit

breaker and lots more *ITI Mechanic Consumer Electronic Appliances* Manoj Dole, ITI Mechanic Consumer Electronic Appliances is a simple e Book for ITI Mechanic Consumer Electronic Appliances JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment trade tools its standardization familiarize with basics of electricity test the cable and measure the electrical parameter maintenance of batteries active electronic components soldering and de soldering MS office Use the internet browse create mail IDs **Electroplater First Year MCQ** Manoj Dole, Electroplater First Year MCQ is a simple Book for ITI Engineering Course Electroplater First Year Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers and various safety measures involved in the industry He gets the idea of trade tools machineries practices on filing hack sawing planning drilling marking cutting and chipping etc Identifies different types of conductors cables prepare wire joints and learns crimping and soldering Knowledge of basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their applications The trainee learns installation testing and maintenance of batteries and wiring of panels The trainee gets the idea of basic process of electroplating The trainee learns to handle different solutions treatment of hazardous chemicals safety precautions in electroplating shop first aid and antidotes for chemical poisoning Preparation of articles before plating different types of cleaning like polishing buffing blasting electro cleaning ultrasonic cleaning and vapour degreasing etc Skilling practice on Nickel and Bright Hard Chromium plating by different methods various defects generally encountered in plating causes for these defects their remedies and various methods to remove defective deposits And lots more

Information Communication Technology System Maintenance Manoj Dole, 2018-12-12 ICTSM is a simple e Book for ITI Engineering Course Information Communication Technology System Maintenance ICTSM First Second Year Sem 1 2 3 4 Revised Syllabus in 2018 It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers Resistors and Soldering De soldering practice Inductors measure Inductance and uses of Transformer Capacitor types of Transistors and use it as Amplifiers voltage frequency modulation of modulator transmitter Working with some important Mechanical Electrical Electronics Accessories used in information communication system Word Processing and Spreadsheet Software hardware components of Desktop Computer Operating System and all other application software hardware components of Laptop PC Replace install SMPS and troubleshoot memory devices chips Modem System Resources Add on Cards Cables Connectors Tablet Smart Devices Networking System using various network devices configuration of Windows Server Installation configuration of DNS Routing and user account customization Configuration of Server and managing Server Network security and Infrastructure Installation and basic configuration of Linux server and lots more [ITI Electronics Mechanic](#) Manoj Dole, ITI Electronics Mechanic is a simple e Book for ITI Electronics Mechanic JOB Interview Exam It contains

objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about fire extinguishers artificial respiratory resuscitation trade tools its standardization basics of electricity test the cable and measure the electrical parameter active electronic components soldering and de soldering PCBs computer system install OS Practice with MS office Use the internet browse create mail IDs download desired data from internet using search engines amplifier oscillator and wave shaping circuits SMD Soldering and De soldering ITI Lift and Escalator Mechanic Manoj Dole, ITI Lift and Escalator Mechanic is a simple e Book for ITI Lift and Escalator Mechanic JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers trade tools its standardization identifies different types of conductors cables their skinning joint making soldering and crimping allied trades like carpentry and fitting work Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application analog and digital measuring instruments hoist pulley chain block and carries ITI Instrument Mechanic Chemical Plant Manoj Dole, ITI Instrument Mechanic Chemical Plant is a simple e Book for ITI Mechanic Chemical Plant JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers PPEs trade tools its standardization Familiarize with chemistry and physics lab and also engineering workshop Measure PH and conductivity of various substances basics fittings job in engineering workshop using proper tools and equipment *ITI Stone Processing Machine Operator* Manoj Dole, ITI Stone Processing Machine Operator is a simple e Book for ITI Processing Machine Operator JOB Interview Apprentice Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety including fire equipments types of stones their dimension decoration Commercial varieties and different types of textures in stones simple fitting operations hacks awing punching and filing Marking instruments and their uses Use of vernier caliper micrometer Method of using drills taps **Architectural Draughtsman MCQ** Manoj Dole, Architectural Draughtsman MCQ is a simple Book for ITI Engineering Course Architectural Draughtsman Revised NSQF Syllabus Architectural Draughtsman It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about Professional Skill Professional Knowledge and Employability Skills related to job role In addition to this a candidate is entrusted to make do project work and Extra Curricular Activities to build up confidence The practical skills are imparted in simple to complex manner simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task The practical part starts with Architectural symbols simple geometrical drawing and finally ends with designing Doors Windows Stairs designing of Residential office building in CAD 3D in sketch up software Working drawing Rendering in Photoshop Preparation of 3D model and BOQ using BIM software like Revit etc The broad components covered under Professional Skill subject are as below FIRST YEAR The first year starts with

Importance of trade training and professional prospects Importance of safety and general precautions The practical training starts with Free hand sketching Lettering basic drawing consisting geometrical figure Architectural symbols representations Later the drawing skills imparted on drawing of projections drawing of stone and brick masonry foundation Carpentry Joints Doors Windows Lintels Arches Trainees are introduced with CAD and then they are entrusted to practice drawings with CAD Drawing of Damp proof Course DPC Projection of Solids in inclined positions Section of solids Residential building Design Stairs Floors and flooring Surface Development Final site plan with landscape are being taught in the practical From this year trainees make drawings in CAD Apart from practical components the trainees are being taught of History of architecture Egyptian architecture Greek architecture Roman architecture and Indian architecture and related theory to practical in theory class

SECOND YEAR Design of single double storied Residential building Post office farm house project in 3D sketch up drawing of Special doors windows Roof and roof coverings final design of plans rendered with furniture layout Final site plan with landscape elements rendered working drawing showing all dimensions of rooms and column grids with door window schedule and details all four elevations with floor heights lintel heights sill heights and details Section through staircase or toilet with complete details in the practical and related theory to practical in theory class are being taught in this year Project like small scale residential apartment primary school small office design Joints in structure using CAD Preparation of 3D model and BOQ using BIM software like Revit etc Rendering in Photoshop Compilation and final submission of Project work in the practical and related theory to practical Climatic responsive design Energy conservation Green Architecture sustainable architecture in theory class being taught in this year

Civil Engineering Assistant MCQ Manoj Dole, Civil engineering Assistant MCQ is a simple Book for ITI Engineering Course Civil engineering Assistant Revised NSQF Syllabus Civil engineering Assistant It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about rvice main waist outlet cleaning of sanitary installation scrapping and painting of pipes of a new site Field Training on use of Adhesive in timber tile fixing jointing in concrete joint filler sealing compound Field Training on different types of construction equipments in Excavation Hoisting Conveying Drilling Construction Management training i e manpower materials machines and economy are being taught to work as an assist of civil engineer and perform as Site Supervisor

Electronics Mechanic First Year MCQ Manoj Dole, Electronics Mechanic First Year MCQ is a simple Book for ITI Engineering Course Electronics Mechanic First Year Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization Familiarize with basics of electricity test the cable and measure the electrical parameter Skilling practice on different types combination of cells for operation and maintenance of batteries being done Identify and test passive and active electronic components Construct and test unregulated and regulated power supplies

Practice soldering and de soldering of various types of electrical and electronic components on through hole PCBs Assemble a computer system install OS Practice with MS office Use the internet browse create mail IDs download desired data from internet using search engines construct and test amplifier oscillator and wave shaping circuits Testing of power electronic components Construct and test power control circuits Identify and test opto electronic devices Able to achieve the skill on SMD Soldering and De soldering of discrete SMD components Verifying the truth tables of various digital ICs by referring Data book Practice circuit simulation software to simulate and test various circuits Identify various types of LEDs LED displays and interface them to a digital counter and test Construct and test various circuits using linear ICs 741 555 and lots more

Refrigeration and Air Condition Technician First Year MCQ Manoj Dole, Refrigeration and Air Condition Technician First Year MCQ is a simple e Book for ITI Course Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety precautions marking sawing filing drilling reaming taping and dieing etc Produce Sheet metal components Identify electrical safety Join different wire measure power currents volts and earth resistance etc Connect single phase 3 phase motors i e star and delta connections Identify the electronic components and their colour code i e transistor capacitor diode amplifier I C and able to work soldering Perform gas welding brazing soldering observing related safety Identify RAC tools and equipment and recognize different parts of RAC system Perform copper tube cutting flaring swaging brazing Test mechanical electrical components Perform leak test vacuuming gas charging wiring installation of refrigerator Perform door alignment door gasket fitting replace door switch Test compressor motor terminal start compressor Direct with relay without relay technique of flushing leak testing replacing capillary filter drier evacuation gas charging Check components of frost free refrigerator electrical mechanical wiring of frost free freeze air distribution in refrigerator sector Leak detection evacuators gas charging Dismantle repair and assemble hermetic fixed and variable speed compressor and test performance Identify the terminals of sealed compressor and their wiring and measure current volts watts and use of DOL starter with different types of motors Perform selection of Hermetic compressor for different appliances starting methods testing controls safety cut out used in sealed compressor Identify the components of control system of Inverter A C and wiring of control system Perform servicing de scaling of condenser internals externals used in different appliances Perform fitting adjustment of drier filter refrigerant controls used in different refrigeration system Perform servicing of different evaporator used in different appliances Carry out Recovery and Recycling of Refrigerant used alternative of CFC HFC re cover transfer handling of gas cylinders Retrofit CFC HFC machine with ozone friendly refrigerant with understanding of the compatibility Pack thermal insulation and prevent cooling leakage Install window AC test Electrical electronics components Fault diagnosis remedial measures Perform servicing of electrical electronic control test installation wiring fault finding remedial measures of different split AC Perform servicing of car AC Fault diagnosis remedial measures
