Collier's ,1922 *Nepal's Enduring Poverty* Sukhdev Shah,2015-08-18 Theory of economic growth has made remarkable progress over the past three decades that has helped give us a better understanding of factors that induce or inhibit growth In practice though a majority of countries have failed to increase growth and improve living conditions The elixir that has been absent from traditional growth theories is the role of an enabling environment that is needed to induce and support growth This book a case study of Nepal's poverty presents the view that non economic factors play an outsized role in determining the productive use of economic resources which is critical to spur growth to a much greater extent than the level of resources a country commands The theme developed in this book is that a country's institutional weaknesses create a hostile environment for economic growth to occur and be sustained Institutional handicaps exercise powerful constraints on the efficiency of use of resources and creation of wealth This happens because institutions are rooted in a country's history its culture emotions and even in national psychology **American Big Game in Its Haunts: The Book of the Boone and Crockett Club** Various,2019-12-19 American Big Game in Its Haunts The Book of the Boone and Crockett Club is a seminal work that intricately weaves the rich tapestry of hunting and conservation in the American landscape This anthology features not only vivid narrative accounts of various fauna but also detailed reflections on the ecological and ethical considerations of big game hunting The literary style is steeped in naturalism drawing on meticulously documented observations and survival tales encapsulating the spirit of exploration and the burgeoning conservation movement of the early 20th century The book serves as both a celebration of the outdoor experience and a clarion call for responsible stewardship of the land and its inhabitants The Boone and Crockett Club established by Theodore Roosevelt and his contemporaries shaped American hunting culture and conservation efforts reflecting the values of society during its inception
