Explaining Religious Party Strength Mário Rebelo, 2022-12-30 Explaining Religious Party Strength explores why religious political parties are electorally successful in some countries but not in others Drawing on insights from political science and sociology this book argues that religious parties are typically formed for defensive reasons reacting against state builders attempts to secularize public services such as education welfare and healthcare Building on these findings the author argues that the strength of religious parties is determined by the infrastructural power of the state Weak states that fail to provide adequate public services open up space for religious communities to build a dense network of private schools hospitals and charities which translates into votes for religious political parties By contrast strong states that provide efficient public services squeeze out private welfare providers undermining the electoral strength of religious political parties The author tests this theory through statistical analysis using a new dataset on all religious parties which have participated in national parliamentary elections between 1800 and 2015 He

includes comparative historical analyses of Roman Catholic political parties in France and Italy and Sunni Islamic political parties in Egypt Turkey and Albania This book will interest students and scholars of religion and politics specifically those interested in party formation voting and political activism as well as policymakers Obstacles to Democracy in Sub-Saharan Africa Nagmeldin Karamalla-Gaiballa,2025-02-10 This book analyses the failure factors of democratic experiences in Sub Saharan Africa focusing on the Republic of Sudan Through historical comparisons it aims to further our understanding of democratic African state formation in the aftermath of colonialism the impact of military coups on undermining democracy in sub Saharan Africa the formation and structuring of political parties in the region and the failures and successes of popular revolutions in establishing good governance To do so the author weaves a portrait of the current state of democratic governance in Sudan and the broader sub Saharan region by threading primary data analysis such as expert interviews and surveyed participants of the Sudanese revolution along with their personal reflections and observations on life lived in Sudan Arguing that the nation is in a state of political crisis the book posits that Sudan marks a potent example of failing democratic institutions in sub Saharan Africa in the post colonial era **Historical Dictionary of Socialism** Peter Lamb,2024-02-20 Socialism has been an influential force for social change for almost two centuries Its philosophy and ideology have inspired millions while simultaneously arousing fear and revulsion in its enemies Having emerged after the French Revolution in the effort to build upon and develop the egalitarian ideas of the Enlightenment socialism has taken many forms It has furthermore sometimes been manipulated and reformulated by opportunists who have built authoritarianism and totalitarian dictatorships in its name Opponents seize on such examples to frighten away people who may otherwise have found socialism attractive Socialism has survived such criticism and misrepresentation as its core principles have struck a chord with generations of people concerned with social justice Historical Dictionary of Socialism Fourth Edition contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 500 cross referenced entries on activists politicians political thinkers political parties and organizations and key topics concepts and aspects of socialist theory This book is an excellent access point for students researchers and anyone wanting to know more about socialism *Violent Non-State Actors* Zdenek Ludvík,2023-05-15 *Violent Non State Actors* The Politics of Territorial Governance is an original in depth scholarly explanation of the impact of territorial penetration control and governance on the effectiveness of the activities of violent non state actors VNSA The theoretical framework operates with the assertion that a non linear causal relationship mediated through the capacity for territorial control and governance exists between the effectiveness of objective achievement and territorial penetration Using four case studies Zdenek Ludv k links these interrelated concepts of territorial penetration territorial control and territorial governance into an interrelated sequentially conceptualized causal framework To this end extensive and unique empirical material gathered to examine the activities of VNSA in considerable detail presents a wholly original and comprehensive method of measuring the degree of

territorial capability of VNSA Zdenek Ludv k demonstrates that there is no directly proportional relationship between territorial penetration and objective effectiveness since neither territorial penetration nor territorial control alone are sufficient to achieve increased effectiveness He shows that territorial penetration and territorial governance are necessary conditions for objective effectiveness since only when territorial penetration and territorial control are followed by territorial governance at the level of advanced wartime social order can VNSA hope to achieve a higher degree of effectiveness

Power, 2018 This book provides the first cross regional study of an increasingly important form of politics coalitional presidentialism Drawing on original research of minority presidents in the democratising and hybrid regimes of Armenia Benin Brazil Chile Ecuador Kenya Malawi Russia and Ukraine it seeks to understand how presidents who lack single party legislative majorities build and manage cross party support in legislative assemblies It develops a framework for analysing this phenomenon and blends data from MP surveys detailed case studies and wider legislative and political contexts to analyse systematically the tools that presidents deploy to manage their coalitions The authors focus on five key legislative cabinet partisan budget and informal exchange of favours tools that are utilised by minority presidents They contend that these constitute the toolbox for coalition management and argue that minority presidents will act with imperfect or incomplete information to deploy tools that provide the highest return of political support with the lowest expenditure of political capital In developing this analysis the book assembles a set of concepts definitions indicators analytical frameworks and propositions that establish the main parameters of coalitional presidentialism In this way *Coalitional Presidentialism in Comparative Perspective* provides crucial insights into this mode of governance Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow

Federalism and Decentralization in Africa Leonid Issaev, Andrey Zakharov, 2024-11-09 This book examines the challenges and opportunities of administrative and territorial reconstruction in Africa from independence until the present time. In light of the rise of separatist movements in various African states and the ethnic linguistic and religious heterogeneity of many African societies the book sheds new light on the fragmentation and decentralization of the African continent. The authors analyze the mechanisms, forms and models of decentralization practiced today in Africa taking into account both federalist and unitary experiences of decentralization and discuss the potential of federalism to resolve conflicts within the continent. The generalizations made in the course of such an analysis can significantly enrich the current vision of the development of the African continent and its future prospects. The book will appeal to scholars and students of political science and African studies.

International Economic Law and Governance Julien Chaisse, Tsai-yu Lin, 2016-08-11 Nation states have long and successfully claimed to be the proper and sovereign forum for determining a country's international economic policies. Increasingly, however, supranational and non-governmental actors are moving to the front of the stage. New forms of multilateral and global policy making have emerged including states and national administrations, key international organizations, international conferences, multinational enterprises and a wide range of transnational pressure groups and NGOs that all claim their share in exercising power and influence on international and domestic policy making. In honour of Professor Mitsuo Matsushita's intellectual contributions to the field of international economic law, this volume reflects on the current state and the future of international economic law. The book addresses a broad spectrum of themes in contemporary international economic regulations and focuses specifically on the significant areas of Professor Matsushita's scholarship including the rise of the soft law mechanism in international economic regulation, the role of the WTO and dispute settlement and specific areas such as competition, subsidies, anti-dumping, intellectual property and natural resources. Part one of the volume provides a comprehensive and critical analysis of the rule-based international dispute settlement mechanisms. Part two investigates the normative influences to and from WTO law and Part three focuses on policy and law making issues.

Rebel Parties in African Post-Conflict Elections Nora Schrader-Rashidkhan, 2021-05-04 In vielen Post-Konflikt-Gesellschaften weltweit beteiligen sich ehemalige Rebellengruppen als politische Parteien an Wahlen. Die Studie behandelt die Gründung und den Erfolg solcher Rebellenparteien in Afrika und geht der Frage nach, inwiefern institutionelle Strukturen diese Prozesse beeinflussen. Der entwickelte Forschungsansatz ermöglicht zunächst eine systematische Erfassung aller afrikanischen Fälle seit 1989, um dann komplexe Kausalbeziehungen mit einer qualitativ vergleichenden Analyse mit Fuzzy Sets/FSQCA aufzudecken. Die Ergebnisse zeigen u.a., dass Institutionen wie Friedensabkommen, Opportunitätsstrukturen für

Rebellenparteien prägen und zu Pfadabhängigkeiten führen und dass demokratischere Wahlen die Etablierung solcher Parteien eher verhindern *When Ideas Matter* Bilal A. Baloch, 2021-10-07 A study of ideas their substance origins and salience in government decision making during credibility crises in India and developing democracies **Political Repression in Bahrain** Marc Owen Jones, 2020-07-16 From torture to fake news this book lays out how the Bahrain regime has used political repression and violence to fight social movements **Political Handbook of the World 2015** Tom Lansford, 2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year **Regime Dynamics in EU's Eastern Neighbourhood** Sergiu Buscaneanu, 2017-01-04 This book examines the effectiveness and consistency of EU democracy promotion in its Eastern neighbourhood between 1991 and 2014 It concludes that the EU's democratization role in this region was not surprisingly weak within this time period However this weak role only took shape under four domestic and transnational conditions a a higher cost benefit balance of rule transfer b a lower structural difficulty a given country would need to overcome on its way towards a democratic regime c increased levels of authority distribution across branches of power and d a higher extent of democratic diffusion resulting from regional interactions In those countries where these domestic and transnational conditions were present as in Moldova Ukraine and Georgia the EU's democratizing influence was in causal terms only the tip of the iceberg Most variation in regime dynamics remains to be explained by domestic and transnational contexts
